MAHATMA GANDHI UNIVERSITY, KOTTAYAM

MGU-BVOC (HONOURS) Regular Examination November 2025
First Semester
Multi-Disciplinary Courses (MDC) – MG1MDCSNP100 – NUTRITION FOR HEALTHY LIVING
(2025 Admission Onwards)

Duration: 1 hour 30 minutes **Max. Marks: 50**

Remember (K), Understand (U), Apply (A), Analyse (An), Evaluate (E), Create (C), Skill (S), Interest (I), Appreciation (Ap)

Part A
One Word Questions
Answer all questions
Each question carries 1 mark

1. **What nutrient is rich in citrus fruits? (CO4 / K)**
   Ans: Vitamin C
2. **Name the major protein in egg white. (CO1 / K)**
   Ans: Ovalbumin
3. **Name the simplest form of carbohydrate. (CO4 / K)**
   Ans: Monosaccharide
4. **What are complete proteins? (CO2 / K)**
   Ans: Proteins containing all essential amino acids
5. **Give the main function of sodium. (CO2 / U)**
   Ans: Maintains fluid balance and nerve transmission
6. **How many kilocalories are provided by 1 g of fat? (CO2 / K)**
   Ans: 9 kcal
7. **Define desserts. (CO3 / K)**
   Ans: Sweet dishes served at the end of a meal
8. **Mention one dry heat method of cooking. (CO3 / K)**
   Ans: Baking *(or grilling / roasting)*
9. **What is hulling? (CO3 / K)**
   Ans: Removal of outer husk/bran from grains
10. **What is refrigeration? (CO3 / K)**
    Ans: Preservation by storing food at low temperatures (0–4°C)

(1×10 = 10 marks)

Part B
Short Answer Questions
Answer any 10 questions
Each question carries 2 marks

11. **List the nutritive value of meat and fish. (CO4 / K)**

Ans:

- Rich in high-quality protein
- B vitamins (B12)
- Minerals: iron, zinc, phosphorus
- Omega-3 fatty acids (fish)

12. **Illustrate the concept of My Plate. (CO1 / A)**
    Ans:
    - Plate divided into fruits, vegetables, grains, proteins
    - Side portion for dairy
    - Encourages balanced healthy meal proportions
13. **Distinguish between pasteurized and raw milk. (CO1 / An)**
    Ans:
    - **Pasteurized:** heat-treated, safe, longer shelf life
    - **Raw:** unheated, may contain microbes
14. **Differences between whole and refined cereals. (CO1 / K)**
    Ans:
    - Whole: contains bran, germ, endosperm
    - Refined: only endosperm, lower fibre & nutrients
15. **List common antinutritional factors in pulses. (CO1 / K)**
    Ans:
    - Phytates
    - Tannins
    - Trypsin inhibitors
    - Oxalates
16. **What are monosaccharides? (CO2 / K)**
    Ans:
    - Simple sugars
    - Single carbohydrate units (e.g., glucose, fructose)
17. **What is scurvy? (CO2 / K)**
    Ans: Deficiency disease caused by lack of vitamin C
18. **Explain deficiency symptoms of vitamin A. (CO2 / U)**
    Ans:
    - Night blindness
    - Dry conjunctiva (xerophthalmia)
    - Dry skin
19. **Mention two principles of meal planning. (CO4 / U)**
    Ans:
    - Balance
    - Variety
    - Nutritional adequacy
20. **What is cretinism? (CO4 / K)**
    Ans: Congenital hypothyroidism caused by iodine deficiency
21. **Mention any two large equipments for cooking. (CO3 / K)**
    Ans:
    - Oven
    - Refrigerator

- Deep freezer
- Steam cooker

22. **Give a note on room service. (CO3 / U)**

Ans:

- Providing food and beverages in guest rooms
- Includes ordering, tray service, clearing

(2×10 = 20 marks)

Part C
Short Essay Questions
Answer any 5 questions
Each question carries 4 marks

23. **Categorize the classification of food. (CO1 / An)**

Ans:

- **Energy-giving foods:** cereals, fats
- **Body-building foods:** pulses, milk, meat
- **Protective foods:** fruits, vegetables
- **Regulatory foods:** water, fibre
- **Processed and convenience foods**

24. **How does food give us energy and help our body grow? (CO1 / An)**

Ans:

- Carbohydrates and fats supply energy
- Proteins build and repair tissues
- Vitamins & minerals regulate body functions
- Balanced diet supports growth & immunity

25. **Describe the functions and deficiency of iron. (CO4 / U)**

Ans:

- **Functions:** hemoglobin formation, oxygen transport, immunity
- **Deficiency:** anaemia, fatigue, pallor, weakness

26. **Explain the different nutrients. (CO2 / U)**

Ans:

- **Carbohydrates:** energy
- **Proteins:** growth, repair
- **Fats:** energy storage, insulation
- **Vitamins:** metabolic functions
- **Minerals:** structural & regulatory functions
- **Water:** hydration, metabolism

27. **Explain the health and hygiene etiquettes in food preparation and service. (CO3 / A)**

Ans:

- Handwashing
- Clean utensils
- Safe storage
- Personal hygiene
- Avoid cross-contamination

- Clean serving area

28. **Discuss the types of table settings. (CO3 / An)**

Ans:

- **Formal setting:** multiple courses, full cutlery
- **Informal setting:** basic plates & cutlery
- **Buffet:** self-service arrangement
- Includes correct placement of plates, napkin, cutlery & glasses

29. **Discuss the hygiene in food service area. (CO3 / An)**

Ans:

- Clean environment
- Pest control
- Proper waste disposal
- Hygienic food handling
- Regular sanitization of surfaces

(4×5 = 20 marks)
