Name : .....

MAHATMA GANDHI UNIVERSITY, KOTTAYAM

MGU-UGP (HONOURS) REGULAR /IMPROVEMENT/ REAPPEARANCE EXAMINATION NOVEMBER 2025

FIRST SEMESTER

Multi-Disciplinary Courses (MDC) - MG1MDCSTA100 - STATISTICAL DATA COLLECTION

(2024 ADMISSION ONWARDS)

Duration: 1 Hour **Maximum Marks: 35**

Remember(K), Understand(U), Apply(A), Analyse(An), Evaluate(E), Create(C), Skill(S), Interest(I) and Appreciation(Ap)

Students should attempt at least one question from each course outcome to enhance their overall outcome attainability.

Part A

Multiple Choice Questions

Answer **All** Questions

Each Question carries **2** marks

1. In survey studies, what type of data is typically collected? [K] / [CO1]

   a). Manipulated data b). Self-reported data

   c). Experimental data d). Randomized data

2. In CRD, how are experimental units assigned? [E] / [CO6]

   a). Randomly b). Systematically

   c). Based on a factor d). None of the above

3. Convenience sampling belongs to the category of [K] / [CO2]

   a). Judgement sampling b). Non-random sampling

   c). Random sampling d). None of these

4. What is a Randomized Block Design (RBD)? [A] / [CO6]

a). Design without randomization

b). Design where experimental units are grouped into blocks before randomization

c). Design with equal replication

d). Design based on random sampling

5. Which of these is not continuous data? [U] / [CO3]

a). A person's weight each week

b). The volume of water in the pacific ocean each day

c). Bikes manufactured in a factory each day

d). None of these

6. Evaluate the following statements about qualitative research. Which one accurately reflects its advantages? [U] / [CO1]

a). It provides a comprehensive understanding of complex social phenomena

b). It allows for easy quantification and statistical comparison

c). It requires minimal interaction with participants

d). It is best suited for hypothesis testing in controlled environments

7. What are extraneous variables? [K] / [CO1]

a). Uncontrolled variables affecting the study

b). Controlled variables

c). Dependent variables

d). Variables under study

8. What is one limitation of uniformity trials? [A] / [CO7]

a). They provide clear insights into treatment effects.

b). They require a large sample size.

c). They are time-consuming to conduct.

d). They can overlook interactions with external variables.

9. What is an open-ended question? [U] / [CO4]

a). A question with multiple choices to select from

b). A question that requires a written response

c). A question with only "Yes" or "No" answers

d). A question that provides one correct answer

10. What is the first step in developing a hypothesis ? [U] / [CO1]

a). Conduct literature survey b). Identify the Research Problem

c). Formulate research question d). Collect data

[10x2 = 20]

Part B

Short Essay Type Questions

Answer any **3** Questions

Each Question carries **5** marks

11. Mention in brief the objectives of sampling. [K] / [CO2]

12. Define primary data. Mention the advantages of primary data. [U] / [CO3]

13. What is meant by Stratified random sampling? [K] / [CO2]

14. Explain the characteristics of nominal scale and provide any two real life examples. [K] / [CO3]

15. Explain \(2^2\) factorial experiment. [E] / [CO6]

[3x5 = 15]
