Name : .....

MAHATMA GANDHI UNIVERSITY, KOTTAYAM

MGU-UGP (HONOURS) REGULAR EXAMINATION March 2026

Fourth SEMESTER

Discipline Specific Core Course (DSC) - MG4DSCPSY200 - FUNDAMENTALS OF COGNITIVE OPERATIONS

(2024 ADMISSION ONWARDS)

Duration: 1 hour 30 minutes **Maximum Marks: 50**

Remember(K), Understand(U), Apply(A), Analyse(An), Evaluate(E), Create(C), Skill(S), Interest(I) and Appreciation(Ap)

Students should attempt at least one question from each course outcome to enhance their overall outcome attainability.

Part A

MULTIPLE CHOICE QUESTIONS

Answer all questions

Each question carries **1** marks

1. Who adopted William Stern's formula for use with the translated and revised Binnet test at Stanford University? [U] / [CO1]

   a). David Weschler b). Howard Gardner

   c). Lewis terman d). Charles spearman

2. Behaviour that occurs as an automatic response to some stimulus are called ____ [U] / [CO2]

   a). Operant Behaviour b). Latent Behaviour

   c). Respondent Behaviour d). Observational Behaviour

3. One major reason eyewitnesses make errors is because of: [U] / [CO3]

   a). Distortions in memory b). Poor moral judgment

   c). Intentional lying d). Lack of legal knowledge

4. Which factor improves memory retention? [U] / [CO3]

   a). Overlearning b). Fatigue

c). Inattention d). Anxiety

5. Why is a variable ratio schedule so effective at maintaining behavior? [U] / [CO2]

a). It's predictable b). The unpredictability makes extinction difficult

c). It uses the most reinforcement d). It requires the least effort

6. Crystallized intelligence (G involves: [U] / [CO1]

a). Abstract reasoning ability b). Problem-solving in new situations

c). Accumulated knowledge and verbal skills d). Speed of processing

7. The Bobo doll experiment was conducted by [K] / [CO2]

a). J. B. Watson b). B. F. Skinner

c). Edward Tolman d). Albert Bandura

8. Explicit memory is also known as [K] / [CO3]

a). Nondeclarative memory b). Declarative memory

c). Procedural memory d). Acoustic memory

9. The concept of the Language Acquisition Device [U] / [CO1]

a). Skinner b). Chomsky

c). Piaget d). Bandura

10. What refers to the fact that information entered into memory in one context or setting is easier to recall in that context than in others? [U] / [CO3]

a). State dependent memory b). Context dependent memory

c). Primacy effect d). Retroactive interference

11. Gifted' individuals are typically defined as those falling in the top 2 percent of the population with the IQ of: [U] / [CO1]

a). 115 or higher b). 100 or higher

c). 130 or higher d). 160 or higher

12. What does the S in SQ3R stand for? [U] / [CO3]

a). Survey b). Synthesis

c). Simple d). Stand

13. According to Ebbinghaus, forgetting is: [U] / [CO3]

a). Gradual and constant b). Rapid at first, then slows down

c). Slow at first, then rapid d). Always uniform

14. Rules or step-by-step procedures that guarantees a solution to a specific type of problem. [K] / [CO1]

a). Heuristics b). Algorithms

c). Confirmation Bias d). Propositions

15. Intelligence is best understood as the result of: [U] / [CO1]

a). Heredity alone b). Environment alone

c). Interaction between heredity and environment d). Chance factors only

[1x15 = 15]

Part B

SHORT ESSAY

Answer any **5** questions

Each question carries **7** marks

16. Provide evidence for the existance of STM and LTM. [K] / [CO3]

17. What is the law of effect? Explain it in the context of trial and error learning. [U] / [CO2]

18. Analyse how the neural network model explains memory. [An] / [CO3]

19. Explain creativity ,its characteristics and stages. [U] / [CO1]

20. Define transfer of learning and different types of transfer. [U] / [CO2]

21. Define cognition. Explain the elements of thought. [U] / [CO1]

22. Compare latent learning and insight learning with suitable examples. [U] / [CO2]

[7x5 = 35]
