Answer :c). People prioritize group goals and cooperation

14. If domestic violence leads to long-term identity distortion and psychological trauma, what broader societal consequence can be inferred? [E] / [CO2]

Answer : c). Perpetuation of inequality and marginalization

15. If a Magistrate orders the abuser to leave the shared household, it demonstrates:

Answer : a). Preventive justice [An] / [CO2]

[2x15 = 30]

PART B

ESSAY

Answer any 2 questions

16. Analyse the importance of conflict resolution strategies for relationship satisfaction. [An] / [CO1]

Answer : Conflict is a natural and unavoidable part of intimate relationships because partners differ in their needs, expectations, and personalities. However, the way conflicts are managed determines whether a relationship becomes stronger or weaker. Effective conflict resolution strategies play an important role in maintaining relationship satisfaction, emotional stability, and long-term commitment. According to the Caryl E. Rusbult Accommodation Model, individuals who are highly committed to a relationship tend to respond to conflict in constructive ways rather than destructive ways. **Strategies**

such as acceptance, trust, forgiveness, and responsiveness help partners maintain harmony and satisfaction. Acceptance is an important strategy in conflict resolution. It involves recognizing that every partner has strengths and weaknesses and that disagreements are a normal part of relationships. When partners accept each other's imperfections instead of reacting with anger or criticism, conflicts become less intense. Acceptance promotes patience and emotional maturity, which contributes to long-term relationship satisfaction. Trust is another key factor that helps partners handle disagreements effectively. Trust refers to the belief that one's partner is reliable, caring, and committed to the relationship. When trust exists, partners are less likely to misinterpret each other's behavior negatively during conflicts. This reduces suspicion and encourages open communication, thereby strengthening the relationship bond. Forgiveness also plays a significant role in maintaining relationship satisfaction. It involves letting go of anger and resentment when a partner makes a mistake or causes hurt. Forgiveness prevents negative emotions from accumulating and helps partners rebuild emotional closeness. By choosing forgiveness over revenge or hostility, couples protect the stability of their relationship. Finally, responsiveness refers to being emotionally supportive and attentive to a partner's feelings during conflicts. When partners listen carefully, show empathy, and validate each other's emotions, conflicts become opportunities for understanding rather than sources of hostility. Feeling heard and valued strengthens emotional intimacy and increases satisfaction within the relationship.

17. What is PoSH act? [E] / [CO2]

Answer: The PoSH Act refers to the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013, a comprehensive legislation enacted in India to ensure protection of women against sexual harassment at workplaces. The Act was introduced following the landmark judgment in Vishaka v. State of Rajasthan, where the Supreme Court recognized sexual harassment as a violation of fundamental rights under Articles 14 (Right to Equality), 15 (Prohibition of discrimination), and 21 (Right to Life and Dignity) of the Indian Constitution. Before this Act, there was no specific statutory mechanism addressing workplace sexual harassment, and the Vishaka Guidelines served as interim safeguards until formal legislation was enacted in 2013. The PoSH Act defines sexual harassment broadly to include unwelcome physical contact and advances, demand or request for sexual favours, making sexually coloured remarks, showing pornography, and any other unwelcome verbal, non-verbal, or physical conduct

of a sexual nature. The Act is based on three core principles: prevention, prohibition, and redressal. It mandates that every organization with 10 or more employees must constitute an Internal Complaints Committee (ICC) to address complaints. For establishments with fewer than 10 employees or when the complaint is against the employer, a Local Complaints Committee (LCC) is formed at the district level. The Act also places responsibility on employers to conduct awareness programs, formulate anti-sexual harassment policies, maintain confidentiality during inquiries, and submit annual compliance reports. Thus, the PoSH Act is not merely punitive but preventive and reformative, aiming to ensure safe, secure, and dignified workplaces for women.

18. Analyse violations of Human Rights in India. [An] / [CO2]

Answer: Human rights in India remain a subject of intense debate, characterized by a tension between robust constitutional protections and increasing reports of state-led restrictions. While the Indian Constitution guarantees fundamental rights like equality and freedom of speech, international monitoring bodies and domestic activists have raised alarms over what they describe as a "deteriorating" human rights record. 1. Civil Liberties and Freedom of Expression 2. Treatment of Minorities and Marginalized Groups 3. Custodial and Security Force Abuses 4. Regional Focus: Jammu, Kashmir, and Manipur

19. How can communication skills assessment be used in schools to improve students' interpersonal relationships? Explain with examples. [A] / [CO3]

Answer: Communication skills assessment in schools helps teachers understand students' strengths and difficulties in interacting with others.

Application in schools:

- Identifying students with **poor listening or expression skills**
- Designing **life-skills training programmes**
- Encouraging **group discussions and role-plays**
- Improving student-teacher interaction
- Reducing conflicts and bullying

Example:

If a student struggles to express opinions respectfully, targeted communication training can help the student learn assertive communication, improving peer relationships and classroom harmony. **[10x2 = 20]**
