Part C
Long Essay Questions
Answer any 1 Question
Each Question carries 15 marks

17. Discuss survey and interview methods used in tourism research.

The survey method collects data from a large number of respondents using questionnaires, useful for identifying trends and patterns. The interview method involves direct interaction, providing in-depth information about tourist behaviour and experiences. Both methods help understand the social, cultural, and economic impacts of tourism and support effective planning and policy-making.

18. Evaluate the impact of women's reservations and representations in local governance.

Women's reservation increases participation of women in political and local governance. It improves representation, promotes gender equality, and ensures that women’s issues are addressed. It enhances decision-making quality, transparency, and inclusive development at the grassroots level.

19. Critically evaluate the role of ISTO in promoting social tourism at the global level.

ISTO (International Social Tourism Organisation) promotes social tourism by ensuring tourism accessibility for all, including marginalized groups. It supports sustainable tourism practices, encourages international cooperation, and helps improve quality of life through tourism. It also advocates policies for inclusive and responsible tourism development
