Remember(K), Understand(U), Apply(A), Analyse(An), Evaluate(E), Create(C), Skill(S), Interest(I)and Appreciation(Ap)

Students should attempt at least one question from each course outcome to enhance their overall outcome attainability.

Part A

Short Answer Questions, Answer any 5 questions. Each question carries 2 marks

1. Explain field observation. [K] / [CO1]

Field Observation is a research method in which data is collected by directly observing people, activities, or events in their natural environment.

2. Mention one way to balance human nature and responsible tourism. [K] / [CO1]

Promoting awareness and education among tourists.

3. Name any one major area of ethical research in tourism from today's scenario. [K] / [CO1]

Sustainable tourism (environmental conservation).

4. Explain ethical behaviour in tourist-host interaction. [U] / [CO2]

Ethical behaviour in tourist–host interaction refers to the respectful, responsible, and fair conduct between tourists and the local people (hosts) at a destination.

5. Define tourism value system. [K] / [CO2]

Tourism value system refers to the set of moral principles, beliefs, and standards that guide the behaviour of tourists, hosts, and tourism stakeholders.

6. Explain how free will relates to decision-making. [U] / [CO3]

Free will refers to the ability of a person to make choices independently, without being completely controlled by external forces.

7. Explain why is justice important for a peaceful society. [U] / [CO3]

Justice is important for a peaceful society because it ensures fairness, equality, and protection of rights for all individuals.

8. Describe responsible tourism practice. [U] / [CO4]

Responsible tourism practice refers to tourism activities that minimize negative impacts on the environment, society, and culture while maximizing benefits for local communities.

Part B

Short Essay Questions, Answer any 5 questions. Each question carries 5 marks

9. **Explain labour exploitation in the tourism industry.** [U] / [CO1]

Labor exploitation in the tourism industry refers to the unfair treatment of workers, where they are underpaid, overworked, or forced to work in poor and unsafe conditions.

10. **Describe environmental indicators used to evaluate tourism ethics**. [U] / [CO1]

Environmental indicators used to evaluate tourism ethics are measures that help assess how tourism activities affect the natural environment and whether they follow responsible practices.

11. **Define civic protection of tourism resources.** [K] / [CO2]

Civic protection of tourism resources refers to the responsibility of citizens and society to protect, preserve, and maintain tourism resources such as natural sites, cultural heritage, and historical monuments.

12. **List intuitive skills required for tour operators.** [K] / [CO2]

Decision-making ability, Problem-solving skills, Communication skills, Interpersonal skills, Situational awareness, Emotional intelligence, Adaptability, Cultural sensitivity etc

13. **Explain the concept of an ecosystem in simple terms.** [U] / [CO3]

An ecosystem is a system where living things and non-living things interact with each other in a particular environment.

14. **List the characteristics of rights.** [K] / [CO3]

Universality, equality, inalienability, legal recognition, duties and responsibilities, protection of human dignity, enforceability etc.

15. **Describe the different methods of moral reasoning in tourism.** [U] / [CO4]

Utilitarian approach, rights-based approach, justice approach, duty-based (deontological) approach, and virtue ethics approach.

16. **Describe human rights violations in the tourism industry.** [U] / [CO4]

Human rights violations in the tourism industry refer to situations where the basic rights and dignity of individuals are ignored or abused in tourism activities.

Part C

Long Essay Questions; Answer any 1 question, Each question carries 15 marks

17. Examine the role of tourism in regional development. [U] / [CO1]

Tourism contributes to regional development through economic development, employment generation, infrastructure development, promotion of local culture, balanced regional growth, foreign exchange earnings, and improvement in living standards.

18. Explain existential philosophy in social behaviour. [K] / [CO2]

Existential philosophy in social behaviour refers to the idea that individuals have freedom to make their own choices and are responsible for their actions in society. It emphasizes that human beings create their own values and meaning in life through their decisions and actions, rather than simply following rules imposed by society.

19. Discuss the moral relationship between humans and the natural environment. [U] / [CO3]

The moral relationship between humans and the natural environment refers to the ethical responsibility humans have to protect, respect, and sustainably use nature. Humans depend on the environment for survival, so they have a duty to care for it rather than exploit it. This relationship is based on values like responsibility, respect, and conservation.

[15x1 = 15]
