MAHATMA GANDHI UNIVERSITY, KOTTAYAM
MGU-UGP (HONOURS) REGULAR EXAMINATION March 2026
Fourth SEMESTER
Value Addition Course (VAC) - MG4VACTTMA00 - ADVENTURE WATER SPORTS: TECHNIQUES, SAFETY, AND ENVIRONMENTAL PRACTICE (2024 ADMISSION ONWARDS)

Duration: 1 hour 30 minutes Maximum Marks: 50

Remember(K), Understand(U), Apply(A), Analyse(An), Evaluate(E), Create(C), Skill(S), Interest(I) and Appreciation(Ap)

Students should attempt at least one question from each course outcome to enhance their overall outcome attainability.

Part A

Short Answer Questions- One or two sentence
Answer any 5 questions Each question carries 2 marks

1. Which water sport involves walking underwater with a helmet? [K] / [CO1]
   - Sea Walking
   - It allows participants to walk on the seabed using a special helmet supplying oxygen

2. What is 1G equal to? [K] / [CO2]
   - 1G = Earth's gravitational force
   - Equal to **9.8 m/s²**

3. What certification is commonly issued by RYA for sailors? [E] / [CO3]
   - Competent Crew Certificate
   - Day Skipper Certificate
   - Yachtmaster Certification

4. Why should paddles be checked before use? [E] / [CO6]
   - To ensure safety and avoid accidents
   - To check for cracks or damage
   - To ensure proper grip and functionality

5. What type of clouds are commonly formed in a warm front? [K] / [CO5]
   - Stratus clouds
   - Nimbostratus clouds

6. What safety device must be checked before use? [U] / [CO6]
   - Life jacket (Personal Flotation Device – PFD)
   - Helmet (if required)
   - Safety harness

7. Wind direction around an anticyclone in the Northern Hemisphere is? [K] / [CO5]
   - Clockwise direction
   - Moves outward from the center

8. Name one control measure WIRC enforces to ensure diver safety. [An] / [CO3]
   - Mandatory safety briefings
   - Equipment inspection
   - Use of certified instructors

[2x5 = 10]

Part B

Short Essay Questions

Answer any 5 questions, Each question carries 5 marks

9. Explain the importance of tides for adventure water sports [An] / [CO5]
   - Helps in planning safe activities
   - Affects water depth and currents
   - Important for navigation and surfing
   - Determines timing for activities
   - Prevents accidents in shallow areas

10. Discuss the role of NIWS in emergency preparedness and response [K] / [CO3]
    - Provides safety training programs
    - Conducts rescue drills
    - Establishes safety guidelines
    - Coordinates emergency services
    - Promotes awareness among participants

11. Discuss penalties and disciplinary actions for rule violations. [An] / [CO3]
    - Fines and penalties
    - Suspension of license
    - Cancellation of permits
    - Legal action in serious cases
    - Blacklisting of operators

12. Discuss the importance of Duty of Care in adventure tourism operations. [K] / [CO4]
    - Ensures safety of participants
    - Reduces risks and accidents
    - Legal responsibility of operators
    - Builds trust and reputation
    - Ensures proper supervision

13. Explain the meaning of climate zones. [K] / [CO5]
    - Regions classified based on climate conditions
    - Determined by temperature, rainfall, and weather patterns
    - Examples: Tropical, Temperate, Polar
    - Helps in planning activities
    - Influences biodiversity and environment

14. Describe the role of KATTC in policy formulation and destination management. [A] / [CO3]
    - Develops tourism policies
    - Promotes sustainable tourism
    - Conducts training programs
    - Supports infrastructure development
    - Enhances destination management

15. Explain the evolution of water-based activities into adventure sports [U] / [CO1]
    - Started as basic fishing and transport
    - Developed into recreational activities
    - Introduction of modern equipment
    - Growth of tourism industry
    - Became organized adventure sports

16. Explain how Plan A & Plan B planning fulfills duty of care obligations. [E] / [CO4]
    - Plan A ensures normal operation safety
    - Plan B provides backup in emergencies
    - Helps manage unexpected situations
    - Reduces risks and hazards
    - Ensures continuous safety measures

[5x5 = 25]

Part C
Long Essay Questions
Answer any 1 questions Each question carries 15 marks

17. Compare non-skill-based and skill-based adventure water sports. [U] / [CO1]

Non-skill-based:	**Skill-based:**	**Comparison:**
• Requires minimal training • Easy to participate • Safer and beginner-friendly • Examples: Banana boat ride, kayaking (basic)	• Requires training and experience • Higher risk involved • Needs technical knowledge • Examples: Scuba diving, surfing	• Skill level: Low vs High • Risk: Low vs High • Training: Not required vs Essential • Equipment use: Basic vs Advanced

18. Describe atmospheric pressure and its significance in meteorology. [U] / [CO5]

- Atmospheric pressure is the force exerted by air on Earth's surface
- Measured using barometer
- Decreases with altitude
- High pressure = stable weather
- Low pressure = storms and rain

Significance:

- Helps predict weather changes
- Influences wind patterns
- Important for aviation and navigation
- Affects climate and environment
- Helps in forecasting cyclones

19. Discuss the insurance and liability regulations for adventure water sports under BHS.[A] / [CO3]

- Mandatory insurance for operators
- Covers accidents and injuries
- Liability protection for service providers
- Ensures compensation to victims
- Requires adherence to safety standards

Importance:

- Protects tourists and operators
- Reduces financial risks
- Promotes safe practices
- Ensures legal compliance
- Builds trust in tourism sector

[15x1 = 15]
