Mahatma Gandhi University Kottayam

MGU-UGP(Honours) Regular Examination April 2026

Second Semester

DSC-MG2DSCDMP101-Introduction to Audio Production

2024(Admission Onwards)

Question Paper Code-25901652 Max. marks:70

Remember(K), Understand(U), Apply(A), Analyse (An.), Evaluate(E), Create(C), Skill(S), Interest(I) and Appreciation (Ap.)

Part-A

Multiple Choice Questions. Answer all questions. Each question carries one mark

1) (b)The dynamic range and resolution of sound [U] / [CO1]
2) (d)Guglielmo Marconi [K] / [CO1]
3) (d)Steel [U] / [CO1]
4) (d)The natural background sound of a location [U] / [CO2]
5) (c)Increased pace and raised pitch [U] / [CO2]
6) (d)Combining and balancing multiple audio tracks [K] / [CO2]
7) (c)To ensure consistency across playback [U] / [CO2]
8) (a)Dialogue paired with on-screen action [U] / [CO2]
9) (d)Set a ceiling level [A] / [CO3, CO4]
10) (a)Analog uses physical media like tape; digital uses computers[A] / [CO3, CO4]

Part-B

Short Answer type Questions (100 words) Answer any 10 questions. Each question carries 3 marks

11) Frequency-Objective Physical measurement of sound-Unit-Hz (Vibrations / second. Pitch/How our brain interprets the speed of vibration (High / Low) [K] / [CO1]
12) 1923-Amateur radio clubs Mumbai, Chennai and Calcutta, ISBS and AIR, Akashavani [U] / [CO1]
13) Radio drama - an artform based on acoustic performance and broadcast on radio/limited number of actors / uses of sound effects, dialogue…etc. [K] / [CO2]
14) Equalization is a process of adjusting the balance between frequency components in audio signal-shapes tonal qualities, reducing noise...etc[U] / [CO2]

15) The main purpose of mixing console in audio recording is to combine and shape multiple audio signals (from mics /instruments) into a balanced single output [U] / [CO2]
16) ADR-Automated dialogue replacement a post-production process where actors re-record dialogues in a controlled studio-higher quality-eliminates background noise [K] / [CO2]
17) Clear authoritative tone-ability to articulate complex stories-right pace, modulation, tone…etc [K] / [CO2]
18) Makes dry recitation into a vibrant story-Clear idea about the context-emotional connection [U] / [CO2]
19) Lack of professionalism-sometimes affect accuracy-more mental effort required from listeners [An.] / [CO2]
20) Varying pitch and pace/dynamic vocal delivery in a higher pitch means high excitement [U] / [CO2]
21) Foley sound effects /everyday noises(footsteps)Ambience/atmospheric sound-establishes mood Impact SFX/dramatic stingers-added during post production [A] / [CO3, CO4]
22) Absorption by using acoustic panels-modifying space (cover hard surfaces) diffusion (makes it more natural) [C] / [CO3, CO4]

Part-C

Essay type questions (450 words) Answer any two questions Each question carries 15 marks

23) (a) Pre-production-planning and story boarding…etc (b) Recording raw audio (c) Editing-cutting out unwanted noises (d) mixing/balancing-adjusting volume levels using EQ (e) Mastering-maximising loudness and sequencing[U] / [CO1]
24) Foley Art -manual production of everyday sound (footsteps, clothing rustle. Etc) more realistic. Diegetic sound-dialogue, environmental noises (rain, traffic) establish the setting. Non diegetic sound-sounds that does not come from within the story -inaudible to characters (e.g.: background music) setting the tone. [K] / [CO2]
25) Sync sound captures row, authentic emotion of an actor's performance-High action cinema scene may contain explosion, gunfire, vehicles…etc-The need of clear dialogue and controllable audio environment-Loud ambient noises, distance of microphone, masking dialogue…etc [U] / [CO2]
26) Breath control (diaphragm-based breathing/belly breathing)-Varied Pitch-Consistency- (7 Ps) (Posture, projection, pace, pitch, pose, pronunciation, personality. -Engagement techniques/emotional storytelling, voice drill, Avoiding vocal strain…etc [U] / [CO2]
