Key features: They are moral obligations of citizens. They promote patriotism and national unity. They help preserve culture and environment. They are non-justiciable in nature.

Part C: Essay Questions

20. The criminal justice system in India consists of four major components: police, prosecution, judiciary, and correctional institutions.

Police

The police are responsible for maintaining law and order, preventing crime, investigating offences, arresting accused persons, collecting evidence, and filing charge sheets before the court.

Prosecution

The prosecution represents the State in criminal cases. Prosecutors conduct trials, present evidence, examine witnesses, and ensure that justice is delivered fairly.

Judiciary

The judiciary interprets laws and delivers justice. Courts conduct fair trials, determine guilt or innocence, and impose punishments according to law. The judiciary also safeguards constitutional rights.

Correctional Departments

Correctional institutions such as prisons, probation, and parole systems focus on reforming offenders. Their objective is rehabilitation and reintegration of offenders into society.

21. A medico-legal autopsy is an examination of a dead body conducted by a qualified medical officer under legal authority to determine the cause, manner, and time of death. It is performed in cases of suspicious, sudden, accidental, suicidal, or homicidal deaths. Objectives of medico-legal autopsy: Determine cause of death
    Estimate time since death
    Identify injuries and weapons used
    Preserve evidence for investigation
    Ethical responsibilities of a doctor: Maintain impartiality and honesty
    Obtain proper legal authorization
    Preserve confidentiality
    Handle the body respectfully
    Accurately document findings
    Preserve samples and evidence carefully
    Avoid fabrication or suppression of evidence
