"Introduction to Hospitality Operations – II -MG2DSCHMC100

(Rooms Division)"

PART A

1. **Department handling guest billing and financial transactions:**
   Front Office / Accounts Department (primarily handled at the Front Office cashier)
2. **Importance of cleaning techniques in housekeeping:**
   Ensures hygiene, efficiency, safety, proper maintenance of surfaces, and cost control.
3. **Function of a room attendant:**
   Cleaning guest rooms, making beds, replenishing supplies, and maintaining room standards.
4. **Impact of personal grooming on front office personnel:**
   Creates first impression, reflects professionalism, builds guest confidence.
5. **Two key positions in front office hierarchy:**
   Front Office Manager, Receptionist (or Guest Service Agent)
6. **Definition of registration:**
   Process of recording guest details during check-in, including personal and booking information.
7. **Two main types of hotel reservations:**
   Guaranteed reservation and Non-guaranteed reservation
8. **Club floor room:**
   Premium floor offering exclusive services like lounge access, complimentary food, and business facilities.
9. **European Plan (EP):**
   Room tariff includes accommodation only (no meals).
10. **Meal plan with only breakfast:**
    Continental Plan (CP)
11. **Purpose of floor-scrubbing machine:**
    Deep cleaning and scrubbing hard floors to remove dirt and stains.
12. **Two factors in selecting cleaning agents:**
    Surface type and nature of dirt (also safety and cost can be included)
13. **Mechanical equipment in housekeeping:**
    Electrically operated cleaning machines used to improve efficiency.
14. **Two manual cleaning tools:**
    Broom and mop (also duster, brush)
15. **Cleaning agents:**
    Chemical substances used to remove dirt, stains, and contaminants.

PART B

1. Role of laundry facilities in housekeeping layout

- Handles linen, uniforms, and guest laundry

- Ensures hygiene and availability of clean linen
- Includes washing, drying, ironing, and storage areas
- Improves operational efficiency and service quality

2. Origin and evolution of hotel industry

- Began with inns and taverns in ancient times
- Developed during Roman Empire for travelers
- Industrial Revolution boosted travel and lodging
- Modern hotels evolved with luxury, technology, and global chains

3. Classification of rooms (occupancy & amenities)

- **Occupancy-based:** Single, Double, Triple
- **Bed type:** Twin, King, Queen
- **Amenities-based:** Deluxe, Suite, Executive
- Based on facilities, size, and luxury level

4. Presidential suite vs Penthouse suite

- **Presidential Suite:**
  Most luxurious, located inside hotel, used by VIPs
- **Penthouse Suite:**
  Located on top floor, often with terrace and panoramic view

5. Importance of maintenance of housekeeping equipment

- Extends equipment life
- Ensures safety
- Maintains efficiency
- Reduces repair cost
- Ensures consistent cleaning quality

6. Rotary floor machine

- Multi-purpose machine used for polishing, scrubbing, buffing
- Used on hard floors like marble, tile, wood

PART-C

1. Coordination between housekeeping and front office

- Room status updates (vacant, occupied, ready)
- Ensures smooth check-in/check-out
- Handles guest requests efficiently
- Maintains communication via reports and systems
- Improves guest satisfaction and reduces delays

---

2. Housekeeping contribution to guest experience

- Clean and comfortable rooms
- Hygiene and safety
- Prompt service (linen change, amenities)
- Personalized touches
- Direct impact on guest satisfaction and reviews

---

3. Bell desk coordination with other departments

- Works with front office during guest arrival/departure
- Coordinates with housekeeping for room readiness
- Assists concierge for guest services
- Handles luggage, messages, and transportation
- Ensures smooth guest movement within hotel
