Name : .....

MAHATMA GANDHI UNIVERSITY, KOTTAYAM

MGU-UGP (HONOURS) REGULAR/IMPROVEMENT/REAPPEARANCE EXAMINATION APRIL 2026

SECOND SEMESTER

Multi-Disciplinary Courses (MDC) - MG2MDCJMC100 - AI AND MEDIA

(2024 ADMISSION ONWARDS)

Duration: 1 Hour 30 Minutes **Maximum Marks: 50**

Remember(K), Understand(U), Apply(A), Analyse(An), Evaluate(E), Create(C), Skill(S), Interest(I) and Appreciation(Ap)

Students should attempt at least one question from each course outcome to enhance their overall outcome attainability.

Part A

Multiple Choice Questions

Answer all questions

Each question carries **1** marks

1. What is one major challenge in developing AGI? [U] / [CO1]

   a). Lack of computing power

   b). Ensuring AI can understand emotions and complex decision-making

   c). Training AI with a single dataset

   d). Limiting AI's ability to process data

2. How does Augmented Intelligence differ from Artificial Intelligence? [U] / [CO4]

   a). Augmented Intelligence replaces humans entirely

   b). Augmented Intelligence enhances human decision-making, while AI operates independently

   c). AI is used only in military applications

   d). Augmented Intelligence does not use machine learning

3. Which among the following is a risk of AI associated with privacy.? [K] / [CO3, CO4, CO5]

   a). AI cannot protect personal information

   b). AI can be used to track personal information without consent

c). AI improves privacy protection

d). AI improves privacy protection

4. Which of the following is an example of AI in daily life? [U] / [CO1]

a). Virtual assistants like Siri and Alexa

b). Basic calculators

c). Landline telephones

d). Traditional wristwatches

5. How is AI used in marketing and advertising? [U] / [CO1]

a). AI enables precise ad targeting based on user behavior

b). AI removes all advertisements

c). AI blocks online payments

d). AI promotes only traditional marketing methods

6. Which among the folllowing is a benefit of using AI ethically? [An] / [CO3]

a). Increased profits

b). Improved public trust

c). Reduced accountability

d). Ignored risks

7. How does AI audio enhancement improve recorded sound? [K] / [CO2]

a). By adding noise to make it sound more natural

b). By removing background noise and improving clarity

c). By distorting human voices for privacy

d). By slowing down speech in real-time

8. Which AI tool is NOT used for text-to-image generation? [U] / [CO2]

a). Canva

b). Deep Dream Generator

c). Craiyon

d). Grammarly

9. Which of the following is a challenge of AI text-to-speech technology? [K] / [CO2]

a). AI-generated voices can sometimes lack natural emotion

b). AI-generated speech is always superior to human speech

c). AI TTS tools cannot be used for accessibility

d). AI-generated audio cannot be edited

10. Which of the following is an application of AI text-in-motion tools? [U] / [CO2]

a). Generating captions and subtitles

b). Creating video thumbnails

c). Enhancing video audio

d). Designing still images

11. What is the role of AI in academic writing? [U] / [CO2]

a). Creating research papers from scratch

b). Summarizing and assisting in research

c). Replacing human academic writing

d). Writing without user input

12. What is named entity recognition (NER) in NLP? [U] / [CO2]

a). Identifying named entities in text, such as names and locations

b). Identifying parts of speech in text, such as nouns and verbs

c). Identifying sentiment in text

d). Identifying text structure

13. Which is NOT a best practice for AI-driven personalization? [U] / [CO2]

a). Using data-driven insights

b). Implementing dynamic content strategies

c). Relying entirely on automation

d). Balancing automation with human creativity

14. Which tool is used for AI-powered noise cancellation? [U] / [CO2]

a). Krisp

b). CapCut

c). ChatGPT

d). DALL·E

15. Why do AI language models require large datasets? [K] / [CO2]

a). To generate accurate, context-aware text

b). To limit the number of words AI can generate

c). To reduce the AI model's size

d). To prevent AI from creating long texts

[1x15 = 15]

Part B

Short Answer Type Questions (100 Words)

Answer any **5** questions

Each question carries **3** marks

16.	What AI breakthroughs helped develop virtual assistants?	[A] / [CO1]
17.	How can AI be applied to fraud detection in banking?	[A] / [CO5]
18.	Examine the future of language models	[An] / [CO3, CO4, CO5]
19.	Illustrate the role of AI in media management	[An] / [CO4]
20.	Discuss the risks of over-reliance on AI in content creation.	[An] / [CO2]
21.	Define AI text-to-image generation and its basic working principle.	[K] / [CO2]
22.	How do AI-generated images benefit digital marketing?	[U] / [CO2]
23.	What is AI-driven content creation?	[K] / [CO2]

[3x5 = 15]

Part C

Essay Type Questions (350 Words)

Answer any **2** questions

Each question carries **10** marks

24.	Discuss the role of OpenAI and other research organizations in shaping the future of artificial intelligence.	[An] / [CO1]
25.	Analyze Generative AI, and how does it differ from other types of AI.	[An] / [CO3, CO4, CO5]
26.	Compare the advantages and limitations of AI-generated video content versus human-created video content.	[An] / [CO2]
27.	Explain the impact of AI-driven content creation on the media landscape, including its effects on traditional publishing and broadcasting.	[U] / [CO2]

[10x2 = 20]
