MAHATMA GANDHI UNIVERSITY, KOTTAYAM

MGU-UGP (HONOURS) REGULAR/IMPROVEMENT/REAPPEARANCE EXAMINATION APRIL 2026

SECOND SEMESTER

Discipline Specific Core Course (DSC) - MG2DSCPES100 - MOVEMENT EDUCATION

(2024 ADMISSION ONWARDS)

Duration: 1 Hour 30 Minutes **Maximum Marks: 50**

Remember(K), Understand(U), Apply(A), Analyse(An), Evaluate(E), Create(C), Skill(S), Interest(I) and Appreciation(Ap)

Students should attempt at least one question from each course outcome to enhance their overall outcome attainability.

Part A

MCQ

Answer all questions

Each question carries **1** marks

1. . Which type of movement involves maintaining the body in a stationary position while controlling posture? [U] / [CO1]

   a).) Locomotor movement b). Manipulative movement

   c). Dynamic movement d). Static movement

2. Which of the following is a key element in Movement Education? [U] / [CO1]

   a). Reading comprehension b). Mental mathematics

   c). Body awareness d). Language proficiency

3. Which of the following best defines Movement Education? [U] / [CO1]

   a). Teaching sports skills and tactics b). The use of physical activities to promote learning and development

c). The study of anatomy and physiology

d). A program for strengthening academic skills

4. Which area of the brain is primarily responsible for the regulation of attention and focus? [U] / [CO2]

a). Occipital lobe

b). Hippocampus

c). Prefrontal cortex

d). Cerebellum

5. Name the two nutrients that act as antioxidants suppoting immune function [K] / [CO1]

a). vitamine A & B

b). vitamine A & D

c). vitamine C & E

d). vitamine C & D

6. Which mineral is necessary for the production of thyroid hormone? [K] / [CO2]

a). iodine

b). Insulin

c). Cortisol

d). Testosterone

7. develop the term learning by doing [A] / [CO1, CO2]

a). gaining knowledge through practical experience

b). Mistakes help identify gaps in knowledge

c). It always leads to success

d). It prevents critical thinking

8. which is the building blocks of cell growth and division [K] / [CO2]

a). carbohydrate

b). protien

c). fat

d). vitamine

9. Why is fun an essential aspect of movement education in early childhood? [U] / [CO2]

a). It increases competitiveness

b). It promotes children’s emotional and social development
