MAHATMA GANDHI UNIVERSITY, KOTTAYAM

MGU-BVOC (HONOURS) Regular EXAMINATION April 2026

second SEMESTER

Skill Development Components (SDC) - MG2SDCFTA100 - FOOD PRESERVATION

(2025 ADMISSION ONWARDS)

Duration: 2 hours **Maximum Marks: 70**

Remember(K), Understand(U), Apply(A), Analyse(An), Evaluate(E), Create(C), Skill(S), Interest(I) and Appreciation(Ap)

Students should attempt at least one question from each course outcome to enhance their overall outcome attainability.

Part A

One or Two Sentences

Answer any **10** questions

Each question carries **2** marks

1. List any two purpose of blanching. [U] / [CO1]
2. List the extrinsic factors that affects the growth of microbes in foods. [K] / [CO1]
3. Define semi-perishable foods with example. [K] / [CO1]
4. Recognize how foods get freezed during Immersion Freezing. [K] / [CO2]
5. Define dehydration process in foods. Mention the moisture percentage of dehydrated foods. [K] / [CO2]
6. Define the principle of drying foods in a Freeze Dryer. [U] / [CO2]
7. Differentiate between contact type and non-contact type heat exchangers. [U] / [CO2]
8. State the principle of low temperature preservation of foods. [U] / [CO2]
9. List any two application of Irradiation process in fruits and vegetables. [K] / [CO3]
10. Define the unit of absorbed Radiation. [K] / [CO3]

11. Recognize the principle of Ohmic Heating method of food processing. [K] / [CO4]

12. Name any three antimicrobial preservatives used in foods. [K] / [CO4]

[2x10 = 20]

Part B

Short Answer

Answer any **6** questions

Each question carries **5** marks

13. Differentiate between physical and biological food contaminations. [U] / [CO1]

14. Discuss the changes that can occur to milk during UHT processing. [K] / [CO2]

15. Explain the method of drying foods in a Fluidised Bed Dryers. [U] / [CO2]

16. Define fermentation of foods. Discuss the mechanisms of preservation in fermented foods. [U] / [CO3]

17. Describe on Alcoholic Fermentation of foods. Comment on any two Alcoholic Fermented food products. [U] / [CO3]

18. Discuss on Lactic Acid Fermented food products. [K] / [CO3]

19. Describe the Ionic conduction mechanism of heat generation in foods during microwave processing. [U] / [CO4]

20. Describe the major mechanisms by which hurdle technology affects the growth of microorganisms in foods. [U] / [CO4]

[5x6 = 30]

Part C

Essay

Answer any **2** questions

Each question carries **10** marks

21. Write a detailed note on the advantages and principles of food preservation. [U] / [CO1]

22. Discuss the advantages of sterilized foods. Summarize the difference between pasteurization and sterilization process in foods. [U] / [CO2]

23. Write an essay on Refrigeration/Chilling of foods. [U] / [CO2]

24. Write an essay on antimicrobial food preservatives. [U] / [CO4]

[10x2 = 20]
