Name : .....

MAHATMA GANDHI UNIVERSITY, KOTTAYAM

MGU-BVOC (HONOURS) Regular EXAMINATION April 2026

SECOND SEMESTER

Skill Development Components (SDC) - MG2SDCLMT101 - MATERIAL AND COLD CHAIN MANAGEMENT

(2025 ADMISSION ONWARDS)

Duration: 1 Hour 30 Minutes **Maximum Marks: 50**

Remember(K), Understand(U), Apply(A), Analyse(An), Evaluate(E), Create(C), Skill(S), Interest(I) and Appreciation(Ap)

Students should attempt at least one question from each course outcome to enhance their overall outcome attainability.

Part A

Multiple Choice Questions

Answer all questions

Each question carries **1** marks

1. The primary aim of material management is to: [U] / [CO1]

   a). a) Increase production cost b). b) Ensure uninterrupted production

   c). c) Reduce employee strength d). d) Increase wastage

2. Purchasing department ensures materials are purchased at: [U] / [CO2]

   a). a) Highest price b). b) Right price

   c). c) Any price d). d) Selling price

3. Cold chain management ensures: [U] / [CO3]

   a). a) Product spoilage b). b) Quality preservation

   c). c) Increased wastage d). d) High temperature

4. Refrigerated containers are commonly known as: [U] / [CO4]

   a). a) Dry vans b). b) Reefers

c). c) Tankers d). d) Bulk carriers

5. In Human Resource Management, material management supports by: [U] / [CO1]

a). a) Reducing labor requirement b). b) Providing safe storage facilities

c). c) Increasing absenteeism d). d) Eliminating training

6. A coding system must be: [U] / [CO2]

a). a) Easy to understand b). b) Difficult to interpret

c). c) Secretive d). d) Unsystematic

7. Banana carrier operations are mainly related to: [U] / [CO3]

a). a) Dry cargo transport b). b) Temperature-controlled transport

c). c) Oil transport d). d) Coal transport

8. Air transport is preferred for perishable goods when: [U] / [CO4]

a). a) Fast delivery is required b). b) Delivery time is not important

c). c) Cost is lowest d). d) Temperature is not needed

9. XYZ analysis is based on: [U] / [CO1]

a). a) Unit price b). b) Annual consumption value

c). c) Value of inventory at a given time d). d) Source of supply

10. Standardisation helps in: [U] / [CO2]

a). a) Cost reduction b). b) Increasing wastage

c). c) Delaying production d). d) Increasing stock levels

[1x10 = 10]

Part B

Very Short Answer Questions

Answer any **10** questions

Each question carries **2** marks

11. Mention the early methods of food preservation. [U] / [CO3]

12. Mention the types of refrigerated containers used in transport. [U] / [CO4]

13. Mention the limitations of ABC Analysis. [U] / [CO1]

14. State the importance of shipment conformance in cold chain management. [U] / [CO4]

15. State the importance of infrastructure in cold chain management. [U] / [CO3]

16. Mention the function of refrigerated transportation in cold chain. [U] / [CO4]

17. State the importance of HML Analysis in inventory control. [U] / [CO1]

18. Explain the role of QR code and RFID coding in cold chain management. [U] / [CO2]

19. Mention the role of pre-cooling in cold chain system. [U] / [CO3]

20. State the importance of proper layout in slaughter house operations. [U] / [CO4]

21. Define GOLF Analysis in Material Management. [U] / [CO1]

22. State the role of Purchasing Management in material control. [U] / [CO2]

[2x10 = 20]

Part C

Short Answer Questions

Answer any **4** questions

Each question carries **5** marks

23. Describe the step-by-step method of classifying inventory items under ABC Analysis. [U] / [CO1]

24. Discuss how the coding system should be easily understandable and memorable by employees. [U] / [CO2]

25. Explain the managerial applications of FSN Analysis in material control. [U] / [CO1]

26. Describe how effective negotiation contributes to cost reduction and better supplier relations. [U] / [CO2]

27. Describe the role of retail outlets and point-of-sale storage in the cold chain. [U] / [CO3]

28. Describe the significance of weight distribution in reefer container stacking. [U] / [CO4]

[5x4 = 20]
