25900652 **Reg.No : .....**

Name : .....

MAHATMA GANDHI UNIVERSITY, KOTTAYAM

MGU-UGP (HONOURS) Regular EXAMINATION October 2025

Third SEMESTER

Discipline Specific Core Course (DSC) - MG3DSCSTA204 - BUSINESS DATA ANALYTICS

(2024 ADMISSION ONWARDS)

Duration: 1 Hour 30 Minutes **Maximum Marks: 50**

Remember(K), Understand(U), Apply(A), Analyse(An), Evaluate(E), Create(C), Skill(S), Interest(I) and Appreciation(Ap)

Students should attempt at least one question from each course outcome to enhance their overall outcome attainability.

Part A

Short answer type questions

Answer any **7** questions

Each question carries **2** marks

1. What are control charts used for? [U] / [CO3]
2. What is the role of probability in decision making under risks? [U] / [CO4]
3. Define decision tree. [U] / [CO4]
4. Define irregular component in time series. [U] / [CO2]
5. What is Statistical Quality Control? [U] / [CO3]
6. Give an example of numeric data [K] / [CO1]
7. State Quality Assurance. [U] / [CO3]
8. Differentiate between Single sampling and Double sampling.? [U] / [CO3]
9. What is the role of quality control in QA? [U] / [CO3]

10. What is Total Quality Management? [U] / [CO3]

[2x7 = 14]

Part B

Short Essay Questions

Answer any **4** questions

Each question carries **6** marks

11. Explain the steps involved in implementing a Sequential Sampling Plan. [U] / [CO3]

12. Describe the procedure for finding trend in a time series using simple methods. [U] / [CO2]

13. Difference between structured and unstructured data. [U] / [CO1]

14. Describe how probabilities are used in decision theory. [U] / [CO4]

15. Explain the advantages of using single sampling in surveys. [U] / [CO3]

16. Explain time series data with an example. [U] / [CO2]

[6x4 = 24]

Part C

Essay Questions

Answer any **1** questions

Each question carries **12** marks

17. How does trend analysis help in identifying patterns in sales data? Explain with examples. [U] / [CO2]

18. Explain the concept of sequential sampling in quality control. Discuss its advantages when compared to other sampling plans like single and multiple sampling. [U] / [CO3]

[12x1 = 12]
