MAHATMA GANDHI UNIVERSITY, KOTTAYAM

MGU-UGP (HONOURS) Regular EXAMINATION October 2025

Third SEMESTER

Value Addition Course(VAC) - MG3VACTXLA03 - TEXTILE PROCESSING AND FINISHING

(2024 ADMISSION ONWARDS)

Duration: 1 Hour 30 minutes **Maximum Marks: 50**

Remember(K), Understand(U), Apply(A), Analyse(An), Evaluate(E), Create(C), Skill(S), Interest(I) and Appreciation(Ap)

Students should attempt at least one question from each course outcome to enhance their overall outcome attainability.

Part A

MCQ

Answer all questions

Each question carries **1** marks

1. Which of the following materials are commonly used as flock fibers? [K] / [CO1]

   a). Paper b). Rubber

   c). Glass d). Nylon or Rayon

2. In skein dyeing, yarn is dyed in the form of what? [U] / [CO3]

   a). cones b). Hanks

   c). Warp beams d). Fabrics

3. Yarn dyeing is performed at which stage of textile production? [K] / [CO3]

   a). Before the fibre is spun into yarn b). After the yarn is spun but before weaving/knitting

   c). After the fabric is woven d). Only on wool yarns

4. What is the main purpose of tentering in textile finishing? [K] / [CO1]

   a). To dye the fabric b). To remove lint

   c). To dry and set the fabric width d). To add luster

5. Duplex printing is especially useful for [U] / [CO4]

a). Socks and gloves b). Curtains and hangings

c). Bedsheets d). Carpets

6. The main purpose of a durable press finish is to [U] / [CO2]

a). Improve water resistance b). Reduce wrinkling and retain shape

c). Increase fabric weight d). Prevent color fading

7. Pad Dyeing is commonly used for. [U] / [CO3]

a). Loose fiber dyeing b). Yarn dyeing

c). Woven and knitted fabric dyeing d). Stock solution dyeing

8. The process of producing a water- marked (wavy) effect on fabric by calendaring is called. [K] / [CO1]

a). Moire b). Embossing

c). Glazing d). Friction finish

9. Which type of Dyeing method is used in Continuous dyeing of fabric? [K] / [CO3]

a). Jet dyeing b). Pad dyeing

c). Skein dyeing d). Dope dyeing

10. Rotary-cylinder singeing is especially suitable for. [U] / [CO1]

a). Denim fabrics b). Knitted fabrics

c). Velvet and pile fabrics d). Polyester blends

[1x10 = 10]

Part B

Fill in the blanks

Answer all questions

Each question carries **1** marks

11. Enhanced finishing is applied to fabric to improve their _____ properties, such as water resistance or wrinkle resistance. [U] / [CO2]

12. A defect caused by gritty particles in the color paste is called _____. [U] / [CO4]

13. In continuous dyeing fabric passes through a dye bath and then through …....rolllers. [U] / [CO3]

14. The chemical used in Mercerization is _____. [K] / [CO1]

15. Fibre dyeing is ideal for blended or ….....coloured effect [U] / [CO3]

16. The process of applying a protective adhesive coating to warp yarns before weaving is called _____. [K] / [CO1]

17. A drawback of garment dyeing is poor _____ in thick areas. [U] / [CO3]

18. In tumble dyeing, _____ ensures even penetration of dye. [U] / [CO3]

19. In Bleaching,_____ are added to prevent rapid decomposition of bleaching agents. [U] / [CO1]

20. In dope dyeing ,colour pigments are added to the…...before the fibre extruded. [U] / [CO3]

[1x10 = 10]

Part C

One word

Answer all questions

Each question carries **1** marks

21. Name one chemical used in shrinkage resistant finishes for wool. [K] / [CO2]

22. Which blanket carries the fabric during rotary printing? [K] / [CO4]

23. What is the process of removing sizing agents from the fabric? [K] / [CO1]

24. How many rollers are used to wind the fabric in jig dyeing? [U] / [CO3]

25. Which natural dye has antimicrobial properties? [K] / [CO3]

26. Name the type of finish that allows breathability but resists wetting. [K] / [CO2]

27. Name the Dyeing method used for Polyester-cotton blends to get different colors. [K] / [CO3]

28. Which printing method uses carved wooden blocks? [U] / [CO4]

29. Which finish is essential for firefighter uniforms? [K] / [CO2]

30. Which synthetic dye is best for polyester fabrics? [K] / [CO3]

[1x10 = 10]

Part D

Short Answer

Answer any **5** questions

Each question carries **2** marks

31. Which fabrics are commonly finished using napping and why? [K] / [CO1]

32. State three advantages of screen printing. [U] / [CO4]

33. What is the shearing process in textiles? [U] / [CO1]

34. Why is Winch Dyeing preferred for knitted fabrics? [K] / [CO3]

35. Discuss the uses and advantages of Stock dyeing? [U] / [CO3]

36. Explain the process of Napping in textiles. [U] / [CO1]

[2x5 = 10]

Part E

Short Essay

Answer any **2** questions

Each question carries **5** marks

37. Write a short note on synthetic dyes in textiles. [U] / [CO3]

38. Write a short note on Sizing and its importance in textile finishing. [K] / [CO1]

39. Discuss the advantages and limitations of Beam Dyeing. [K] / [CO3]

40. Explain why discharge printing is more effective on dark backgrounds. [U] / [CO4]

[5x2 = 10]
