MAHATMA GANDHI UNIVERSITY, KOTTAYAM

MGU-BVOC (HONOURS) Regular EXAMINATION November 2025

First SEMESTER

Multi-Disciplinary Courses (MDC) - MG1MDCFTA100 - FOOD PROCESSING TECHNOLOGY

(2025 ADMISSION ONWARDS)

Duration: 1 hour 30 minutes **Maximum Marks: 50**

Remember(K), Understand(U), Apply(A), Analyse(An), Evaluate(E), Create(C), Skill(S), Interest(I) and Appreciation(Ap)

Students should attempt at least one question from each course outcome to enhance their overall outcome attainability.

Part A

One or two Sentences

Answer any **10** questions

Each question carries **1** marks

1. Mention the advancement in food processing from the 20th century. [U] / [CO1]
2. State how food processing affect vitamin C content [U] / [CO2]
3. Define cryogenic freezing. [U] / [CO3]
4. State the critical levels of sugar and salt concentration that inhibit microbial growth. [K] / [CO3]
5. Classify irradiation processes based on dose levels. [K] / [CO3]
6. State the typical temperature range used in sterilization. [U] / [CO3]
7. Report one preventive measure for sugar bloom. [U] / [CO4]
8. Classify the main methods of pickling. [U] / [CO4]
9. Describe one defect and its prevention in sauce processing. [U] / [CO4]
10. Describe the function of roasting in peanut butter preparation. [U] / [CO4]

11. State the sterilization temperature and time for canned soups. [U] / [CO4]

12. Describe the reason for cloudy jelly formation. [U] / [CO4]

[1x10 = 10]

Part B

Short answer

Answer any **4** questions

Each question carries **5** marks

13. Write short notes on the benefits and limitations of secondary processing. [K] / [CO1]

14. Explain the objectives and methods of conventional cooking. [U] / [CO2]

15. Describe the LTLT, HTST and UHT methods of pasteurization. [U] / [CO3]

16. Explain the principle of high-temperature preservation. [U] / [CO3]

17. Explain the packaging and storage requirements for ketchup. [U] / [CO4]

18. Discuss the importance of maintaining proper sugar–pectin–acid balance in jam making. [U] / [CO4]

[5x4 = 20]

Part C

Essay Questions

Answer any **2** questions

Each question carries **10** marks

19. Describe the entire canning process, covering the stages of preparation, processing, and safety precautions. [U] / [CO3]

20. Discuss the principles, types, and limitations of refrigeration in food preservation. [U] / [CO3]

21. Explain the overall contribution of low temperature preservation to modern food technology. [K] / [CO3]

22. Describe in detail the complete process of marmalade production, including extraction, boiling, and packaging. [U] / [CO4]

[10x2 = 20]
