[5x2 =10]

PART D

Short Essay Type Questions (150 Words)

Answer any 5 Questions. Each Question carries 5 marks

31. Danelaw had a profound impact on the political and cultural landscape of England - Danish customs, laws, and language took root, creating a distinct Scandinavian influence that lasted for generations - Viking jarls governed the region, and Danish settlers established towns and trading centres – Trade between the Danelaw and Scandinavia flourished - Vikings brought with them new techniques in metalworking, shipbuilding, and other crafts - economy of the Danelaw thrived on a combination of agriculture, trade, and craftsmanship. [U]/ {CO5}
32. Founded in the 12th c - intellectual centres of classical learning - reformation movement - Oxford movement - role in renaissance. [An]/ {CO3}
33. Innovations in navigation, astronomy, and engineering. Mathematicians like John Dee contributed to navigational techniques essential for exploration and trade – influenced art and literature, shaping the era's intellectual landscape and facilitating the Renaissance's broader scientific revolution - characterized by a desire to understand the natural world through direct, empirical observation - new scientific approach emphasized observation and experimentation - fostered a spirit of curiosity and critical thinking central to Enlightenment thought - the expansion of universities, particularly Oxford and Cambridge - began teaching students in the vernacular rather than in Greek or Latin - Humanist scientists proposed alternative theories to those of Aristotle and Ptolemy. [An]/ {CO1}
34. Marks may be awarded. No reference to the topic in the prescribed text. [An]/ {CO1}

35. Plantagenet dynasty ruled England for over two centuries - begins with the accession of Henry of Anjou to the British throne as Henry II in 1154 - inherited not only the English crown but also Normandy - Henry added significant continental territories to his domain - his rule expanded across vast stretch of Europe, making him one of the most powerful monarchs of his time - possessed the richer half of France - The Plantagenet name comes from Henry II's father, Geoffrey of Anjou, who wore a sprig of broom plant in his cap. As a result, Henry and his successors were dubbed the Plantagenets. [U]/ {CO5}

36. Developed after the Norman Conquest (1066) - blending Old English with Norman French - inflections reduced - fixed word order - French vocabulary entered English in law, government, religion, and art - northern, southern, and midland dialects - Chaucer's time - the East Midland dialect began to dominate - Middle English - literary works like The Canterbury Tales. [An]/ {CO2}

37. Queen Elizabeth I introduced the Elizabethan Religious Settlement in 1559, a compromise that established the Church of England as Protestant but retained some Catholic traditions - balanced approach - avoided alienating either group too severely - creating a middle ground that allowed both Catholics and Protestants to coexist under her reign - reduced the risk of internal rebellion while ensuring loyalty to the crown - Positioned herself as the Supreme Governor of the Church of England, reinforcing her authority over both religious and political matters. [K]/ {CO1}

38. Old Norse term "Vikings" refers to the seafaring raiders, traders, and warriors from the Scandinavian countries of Denmark, Norway, and Sweden - embarked on expeditions across Europe, driven by the desire for plunder, slaves, trade, and territorial expansion - skill in sea travel - long ships allowing them to traverse vast distances quickly, reaching as far as the British Isles, the Mediterranean, and even North America - Viking activity was primarily in the form of small-scale raiding parties. The Danish Vikings were among the earliest to launch raids on the British Isles - first targets were coastal monasteries, which were wealthy but poorly defended - attacks on religious centres began in the late eighth century and intensified in the following decades.

[An]/ {CO5}

[5x5 = 25]

PART E

Essay Type Questions

Answer any 1 Question in 300 Words. Each Question carries 15 marks.

39). Tyndale played a key role in shaping religious thought during this transformative period - took this mission further with his translation of the Bible into English directly from the original Hebrew and Greek texts – use of plain, direct language helped make the Bible comprehensible to a broader audience - many of the phrases he coined became an integral part of English culture and language - Miles Coverdale (1488–1569), another key figure, produced the first complete printed Bible in English, known as the Coverdale Bible (1535) - Authorized by King Henry VIII after his break with the Catholic Church, Coverdale's translation marked a turning point in the availability of religious texts for ordinary English people - helped solidify the Reformation's reach and further integrate religious reform into the fabric of English society.

[U]/ {CO5}

40). Christopher Columbus - voyages across the Atlantic Ocean - paved the way for European colonization and exploitation of the Americas - Born in Genoa, Italy - embarked on a bold expedition to find a new trade route to Asia by sailing westward - marked the beginning of

sustained contact between Europe and the Americas – discovered “the New World”, a term that refers to the Americas -influencing European exploration and colonization -Vasco da Gama, Portuguese explorer - voyages instrumental in establishing a direct maritime route from Europe to India - the first European to reach India by sea, landing in Calicut on the south-western coast of India in 1498. This discovery was ground-breaking as it bypassed the dangerous and long overland routes traditionally used for trade with Asia, particularly for highly sought after spices - route da Gama discovered, around the southern tip of Africa, opened up new opportunities for trade and marked the beginning of European imperialism in Asia - led to vast economic gains for Portugal but also solidified its dominance in the spice trade - regarded as a major turning point in the expansion of European colonial empires, establishing an enduring connection between Europe and Asia - Amerigo Vespucci (1454–1512) - Italian explorer, navigator, and cartographer - sailed along the eastern coast of South America, reaching what we now know as Rio de Janeiro and the Río de la Plata. He correctly theorized that these lands were part of a “New World” - altered the way Europeans viewed the world - Ferdinand Magellan circumnavigated the Earth- a discovery that dramatically expanded European geographical knowledge - helping Europeans better understand global trade routes and the world’s geography.
