Answer Key

Mahatma Gandhi University, November 2025

Course Code: MG1MDCMBG101 – Microbiology in everyday life

Part A – MCQ (1 mark each)

1. B – understanding role of microbes in health and environment
2. B- converts lactose to lactic acid
3. A - Spirulina
4. B- Hand washing with soap and water
5. A- minimize waste generation at its source
6. B -converts used materials into reusable products
7. D – food spoilage
8. B- lactic acid bacteria
9. A - spring
10. B - antibiotic resistance

Part B – Fill in the blanks (1 mark each)

11. pathogens
12. water contamination / microbial contamination
13. drinking water / potable water
14. Propionibacterium
15. Prescription drugs

Part C – True/False (1 mark each)

16. False
17. False
18. False

19. True
20. False

Part D – One word answers (any 5)

21. Cleaning
22. Penicillium roqueforti
23. Lactose
24. Idli
25. Unwanted solid materials discarded by humans
26. Aedes mosquito
27. Overuse and misuse of antibiotics
28. To prevent misuse and reduce environmental contamination

Part E – Short answers (any 5) (2 marks each)

29. Recycling reduces waste, conserves resources,(**1mark**) saves energy, and improves environmental hygiene.(**1mark**)

30. Sources: household sewage, industrial effluents, hospitals; ,(**1mark**) Types: black water, grey water; Impact: diarrhoea, cholera, skin infections. ,(**1mark**)

31. Methods: landfill, composting, incineration; ,(**1mark**)
Advantages/Disadvantages: cost, pollution, resource recovery. ,(**1mark**)

32. Examples: *Salmonella*, *E. coli*—cause diarrhoea, vomiting, fever. ,(**2marks**)

33. Yeast ferments sugars to produce ethanol and CO_2; essential in beer, wine fermentation. ,(**2marks**)

34. Example: Cholera (*V. cholerae*)—watery diarrhoea; ,(**1mark**) Typhoid (*Salmonella typhi*)—fever, abdominal pain. ,(**1mark**)

35. Preventive measures: masks, handwashing, ventilation, vaccination, avoiding crowding. **(any two, 1 mark each)**

36. Control: keep skin dry, avoid sharing clothes, antifungal creams, hygiene practices. **(any two, 1 mark each)**
