MAHATMA GANDHI UNIVERSITY, KOTTAYAM

MGU-BVOC (HONOURS) MODEL EXAMINATION, 2026

THIRD SEMESTER

MG3SDCBFT200 - APPAREL MANUFACTURING FUNDAMENTALS

(2025 ADMISSION ONWARDS)

Duration: 2 hours **Maximum Marks: 70**

Remember(K), Understand(U), Apply(A), Analyze(An), Evaluate(E), Create(C), Skill(S), Interest(I) and Appreciation(Ap)

Students should attempt at least one question from each course outcome to enhance their overall outcome attainability.

Part A

Very Short Answer Questions

Answer any 10 questions, Each question carries 2 mark

1. What is meant by the clothing industry? [K] / [CO1]

2. Name any two product categories in the clothing industry. [K] / [CO1]

3. Name any two sectors of the clothing industry. [K] / [CO1]

4. Mention one infrastructure facility required in a clothing factory. [K] / [CO1]

5. What is a design sheet? [K] / [CO2]

6. What is a strike-off sample? [K] / [CO2]

7. What is a marker in garment production? [K] / [CO3]

8. Name any one method of spreading fabric. [K] / [CO3]

9. Name any one type of cutting machine used in the cutting room. [K] / [CO3]

10. What is fusing in garment production? [K] / [CO3]

11. Name any two finishing activities in garment manufacturing. [K] / [CO4]

12. What is warehousing? [K] / [CO4]

[2 × 10 = 20 Marks]

Part B

Short Answer Questions

Answer any 6 questions, Each question carries 5 marks

13. Explain the growth and structure of the clothing industry and identify the major product categories. [U] / [CO1]

14. Describe the different sectors of the clothing industry and explain the infrastructure and profile of a clothing factory. [U] / [CO1]

15. Explain the importance of design in production and describe the process involved in preparing a design sheet and developing a seasonal collection. [U] / [CO2]

16. Describe fabric development and analysis using desk-loom and strike-off methods. Explain sample analysis, approvals and counter samples. [U] / [CO2]

17. Explain fabric inspection in the cutting room and discuss the control of fabric and different methods of spreading. [U] / [CO3]

18. Explain the use and importance of markers, methods of laying patterns and yardage control in the cutting room. [U] / [CO3]

19. Describe sewing operations and production techniques used in garment manufacturing. [U] / [CO3]

20. Explain the types of fusing, operation of a fusing machine and the quality aspects to be considered in fusing. [U] / [CO3]

21. Explain the finishing process with reference to finishing room operations, pressing equipment, trimmings, packing, warehousing and shipping. [U] / [CO4]

[5 × 6 = 30 Marks]

Part C

Essay Questions

Answer any 2 questions, Each question carries 10 marks

22. Analyse the clothing industry as a manufacturing system. Discuss its history, growth and structure, major product categories, different industry sectors, and the infrastructure and profile of a clothing factory. [An] / [CO1]

23. Analyse the role of design in garment production. Explain the preparation of a design sheet, development of seasonal collections, fabric development and analysis through desk-loom and strike-off, sample approvals and the use of counter samples. [An] / [CO2]

24. Analyse the garment production process from fabric inspection and spreading through marker planning, pattern laying, yardage control, cutting, sewing and fusing. Explain the production techniques and quality aspects involved at each relevant stage. [An] / [CO3]

25. Analyse the finishing process in garment manufacturing. Discuss finishing-room activities, pressing equipment, trimmings, packing, warehousing and shipping, and explain how these operations contribute to the completion and dispatch of garments. [An] / [CO4]

[10 × 2 = 20 Marks]
