QP CODE: 25900056

MAHATMA GANDHI UNIVERSITY, KOTTAYAM
MGU-UGP (HONOURS)
REGULAR EXAMINATION MARCH 2025
SECOND SEMESTER
Discipline Specific Core Course (DSC) - MG2DSCDMP100 - MOBILEJOURNALISM
(2024 ADMISSION ONWARDS)

Duration:2 Hours **Maximum Marks: 70**

Part A
Multiple Choice Questions
Answer all questions. each question carries 1 mark

No	Answer
1	b). Microphone and camera
2	b). Obtain permission before filming or recording people
3	c). Camera quality
4	a). It allows for real-time engagement with the audience
5	a). Canva
6	a). Adding visible social media share buttons
7	a). Noise Floor
8	d). Podcast name and logo
9	c). High Dynamic Range
10	a). Saving the edited video in a specific format

Part B
Short Answer Type Questions Answer any ten questions. each question carries 3 marks

No	Answer
11	Simple navigation, fast loading, intuitive design, responsive layout, and clear content.
12	Portability, real-time reporting, and multimedia integration.
13	MOJO platforms enable instant content capture, editing, and sharing directly from mobile devices, allowing journalists to report news as it happens.
14	Use clear navigation, ensure mobile responsiveness, and maintain concise, readable content.
15	1. Define your target audience. 2. Plan content and design layout. 3. Choose a publishing platform. 4. Create and edit content. 5. Promote the E-Zine through marketing channels. 6. Launch and gather feedback.
16	The three-act structure can be adapted for podcasts by: Act 1 (Setup): Introduce the topic, characters, or conflict to hook listeners. Act 2 (Confrontation): Explore the main story or discussion, adding tension or depth. Act 3 (Resolution): Conclude with key takeaways, solutions, or a compelling wrap-up.
17	A podcast niche is a specific topic or audience focus that your podcast targets. It’s

	important because it helps attract a dedicated audience, differentiates your content, and makes marketing more effective.
18	An external microphone offers better sound quality, reduces background noise, captures clearer vocals, and provides more control over audio settings compared to a built-in mobile microphone.
19	Common video editing tools include Adobe Premiere Pro, Final Cut Pro, DaVinci Resolve, iMovie, and Filmora.
20	An E-Zine enhances reader engagement through interactive content (like videos and links), instant access on digital devices, real-time
21	**Tripods:** Provide stability, reducing shakiness and improving shot quality for video and interviews. Compact and portable tripods make it easier to shoot in various environments. **Microphones:** External microphones capture clearer, higher-quality sound compared to built-in mobile mics. They reduce background noise and improve audio clarity, which is essential for professional reporting. **Lighting Equipment:** Portable lights, like ring lights or LED panels, ensure well-lit shots, even in low-light conditions. Proper lighting enhances visual quality and makes the content look more polished and professional.
22	**Mobile Journalism (MOJO):** Involves professional journalists using mobile devices to capture, edit, and share news content. It focuses on high-quality production and storytelling with a mobile-first approach. **Citizen Journalism:** Involves everyday people reporting news events using their own devices, often without formal training. It's more spontaneous and typically less polished but contributes to real-time reporting and diverse perspectives.

Part C

Essay Type Questions Answer any two questions. each question carries 15 marks

No	Answer
23	Mobile journalism has significantly impacted traditional news media by shifting the focus to real-time, on-the-go reporting. With smartphones enabling journalists to capture, edit, and share content instantly, news cycles have become faster, challenging traditional media's reliance on lengthy production processes. It has also democratized news creation, allowing citizen journalists to contribute, while encouraging established outlets to adopt mobile-first strategies. This shift has led to more accessible, diverse, and immediate news coverage, but it also poses challenges to traditional media in terms of credibility, quality control, and monetization models.
24	Videos play a crucial role in increasing user engagement on blogs by providing dynamic, visually appealing content that captures attention more effectively than text alone. They can break down complex topics, showcase product demos, or tell a story in an entertaining way, keeping visitors on the page longer. Videos also cater to different learning styles, making it easier for users to absorb information. Moreover, they encourage social sharing and interaction, which can drive traffic and foster a sense of connection with the audience.
25	**Interview-style podcasts** involve conversations with guests, offering multiple perspectives and expertise. They can bring variety and fresh insights to each

	episode, attract guest audiences, and create dynamic content. However, they require scheduling, coordination, and can sometimes lead to inconsistent episode flow. **Solo-hosted podcasts** feature a single host, offering more control over content and consistency. They allow for a more personal connection with the audience and can be easier to produce without needing to coordinate with guests. However, they might lack variety and can be challenging to maintain audience interest over time without guest involvement or external perspectives.
26	Mobile journalists can integrate AI by using tools for automated transcription, video editing, and data analysis, helping streamline production and enhance storytelling efficiency. Virtual Reality (VR) allows them to create immersive experiences, enabling viewers to explore a story or event from a first-person perspective, especially in investigative or conflict reporting. Augmented Reality (AR) can overlay additional information, graphics, or context on real-world footage, enriching storytelling by providing deeper context and engaging visuals. These technologies enhance audience interaction, making stories more engaging, informative, and impactful.
