MAHATMA GANDHI UNIVERSITY, KOTTAYAM
MGU-UGP (HONOURS) REGULAR EXAMINATION MARCH 2025
SECOND SEMESTER

Discipline Specific Core Course (DSC) - MG2DSCFIM101 -
FUNDAMENTALS OF SPORTS AND GAMES (KHO-KHO, KABADDI, WEIGHTLIFTING, WRESTLING, JUDO)
(2024 ADMISSION ONWARDS)

Duration: 1.5 Hours. **Maximum Marks: 50**

Remember (K), Understand (U), Apply (A), Analyse (An), Evaluate(E), Create (C), Skill (S), Interest (1) and Appreciation (Ap)

Part A – MCQs (1 mark each)

1. Quick decision-making
2. Break-fall (Ukemi)
3. Lifting the bar from ground to shoulders
4. Practicing shuttle runs
5. Playing on soft surfaces to prevent injuries
6. 5 (rings in the Olympic symbol)
7. To be used only after a raider is touched
8. Outside the playing field
9. Based on the last point scored
10. Video analysis and data tracking

Part B – Short Answer (2 Marks each)

11. Founder of Judo: Jigoro Kano. His aim was to create a discipline that combined physical education with moral and mental development.

12. Endurance training helps improve stamina, speed recovery, and performance in fast-paced games like Kho-Kho and Kabaddi.

13. Wrestling tournaments: Several including Olympics, World Championships, Commonwealth Games, and regional events.

14. Qualities of a Kho Kho player: Agility, speed, quick decision-making, and teamwork.

15. Cooling down importance: Reduces muscle stiffness, promotes recovery, and prevents injuries.

16. Governing bodies:

Kho-Kho: Kho-Kho Federation of India

Wrestling: United World Wrestling (UWW), Wrestling Federation of India

Weightlifting: International Weightlifting Federation (IWF), Indian Weightlifting Federation

17. Partner drills in wrestling: Mirror drills, resistance bands, partner stance training, and controlled takedown drills.

18. Referee responsibilities in Olympic weightlifting: Enforce rules, ensure fair lifting standards, signal valid/invalid lifts.

19. If raider stops chanting "Kabaddi": Raid is declared unsuccessful, and the raider is out.

20. Valid "Kho": It must be loud, clear, and given within reach of the active chaser's body.

21. Mistakes in evaluation: Bias, delay in decisions, misjudgment. Avoided via training, tech assistance, and review systems.

22. Weightlifting originated: In ancient Greece and Egypt; modern Olympic form began in the 19th century.

23. Importance of Teamwork in Kho Kho.

Teamwork is the backbone of Kho Kho. The game relies heavily on coordination among players. Each team member must understand their role—whether chasing or defending—and work in sync with others. During chasing, quick and accurate "Kho" (tag) ensures speed and continuity. Defenders need to anticipate chasers' movements and communicate strategies. Without teamwork, players act in isolation, leading to missed opportunities and points. Successful Kho Kho teams often train together to build trust, improve reflexes, and enhance mutual understanding. Team spirit and unity are key to winning matches.

24. Ways to Correct Weightlifting Techniques

Correct weightlifting techniques are vital to avoid injuries and improve performance. Here are some effective methods:

1. Coaching & Feedback: A trained coach can identify flaws and suggest corrections.

2. Video Analysis: Reviewing recordings helps lifters see posture, timing, and movement patterns.

3. Drills & Progressions: Practicing movements like squats, pulls, and presses separately helps perfect form.

4. Mirror Training: Watching oneself while lifting helps in adjusting body alignment.

5. Light Loads First: Practicing technique with light weights before increasing the load helps develop muscle memory. Regular correction and reinforcement of proper form ensure safe and effective lifting.

25. Role of a Referee in Kabaddi

A referee in Kabaddi ensures fair play and enforces rules. Their roles include:

1. Monitoring Gameplay: Referees observe raids, tackles, and movement on the court.

2. Decision Making: They declare points, fouls, and outs based on player actions.

3. Ensuring Safety: They stop play if there's injury or misconduct.

4. Communication: They use hand signals and whistles for clarity.

5. Match Management: Referees control timing, substitutions, and disputes. Advanced tools like video replay and timers support accurate decisions. A good referee contributes to smooth and fair conduct of the game.

26. Strength and Endurance Exercises for Players

Strength and endurance are critical in almost every sport. Here are exercises that build both:

1. Push-Ups and Pull-Ups: Build upper body strength and muscular endurance.

2. Squats and Lunges: Develop leg strength and stability.

3. Planks and Core Workouts: Strengthen abdominal muscles for better balance and posture.

4. Sprints and Shuttle Runs: Improve anaerobic endurance and speed.

5. Circuit Training: Combines strength and cardio for overall fitness. Regular training enhances stamina, power, and recovery rate—essential traits for high-performance athletes.

27. Impact of Technology in Sports

Technology has transformed modern sports in several ways:

1. Accurate Decision-Making: Tools like Hawk-Eye and VAR reduce human error.

2. Performance Analysis: Wearables and video analysis help athletes improve techniques.

3. Injury Prevention: Biomechanical sensors detect early signs of fatigue or poor posture.

4. Fitness Tracking: Apps and devices monitor heart rate, steps, and sleep patterns.

5. Audience Engagement: Technology improves broadcasting, scoring, and live updates. Overall, technology ensures fairness, boosts training outcomes, and enhances the fan experience.

28. Preparation of Referee Before a Match

Before officiating a match, referees go through thorough preparation:

1. Rule Review: They revise updated rules and game regulations.

2. Physical Readiness: They perform light warm-ups to stay agile during the match.

3. Mental Focus: Staying calm and alert is vital for fast and fair decisions.

4. Briefings: They attend pre-match meetings to align with fellow officials and coaches.

5. Equipment Check: Ensuring whistles, watches, scorecards, and uniforms are ready. Preparation boosts confidence and helps referees manage the game smoothly and professionally.
