MAHATMA GANDHI UNIVERSITY, KOTTAYAM
MGU-UGP (HONOURS) REGULAR EXAMINATION MARCH 2025
SECOND SEMESTER
Multi-Disciplinary Courses (MDC) - MG2MDCGEO100 - NATURAL HAZARDS
QP Code 25900094

(2024 ADMISSION ONWARDS)
ANSWER SCHEME

Part A – Multiple Choice Questions

Answer all questions, each question carries 1 mark

1. b) It is a natural process or phenomenon that can potentially cause harm to humans [CO1]
2. c) Flooding and powerful waves [CO2]
3. c) Earth's internal heat and plate tectonics [CO1]
4. b) Dengue [CO1]
5. c) Move to a safer place or shelter [CO3]
6. b) To involve residents in decision making process [CO3]

[1 × 6 = 6 marks]

Part B – Short Answer Questions

Answer any 5 Questions, each question carries 3 marks

7. Definition of meteorological hazards (e.g., storms, cyclones) [1], Definition of climatological hazards (e.g., droughts, heatwaves) [1], Key differences [1] [CO1]
8. Explain primary impact of Earthquake - Ground shaking and structural damage [1], Casualties or injuries [1], Economic disruption or infrastructure collapse – any 3 impacts and its explanation [1] [CO2]
9. Destruction of habitats [1], Death of flora and fauna [1], Disruption of ecosystems and food chains [1] [CO1]
10. Increase in impervious surfaces and flood risk [1], Deforestation and landslides [1], Overpopulation in hazard-prone zones [1] [CO2]
11. Definition of hazard mitigation [1], Role of flood barriers in protecting infrastructure [1], Example or explanation of effectiveness [1] [CO2]
12. Ensuring personal safety and medical needs [1], Reporting damages and documenting with photos [1], notifying authorities and initiating repair/relief [1] [CO3]
13. Definition of epidemic [1], Examples: Dengue, Malaria, COVID-19 etc. [1], Transmission and prevention aspects [1] [CO3]

[3 × 5 = 15 marks]

Part C – Short Note Questions

14. Natural hazard definition – [1],
    Floods (causes, impacts and regions affected) [2],
    Landslides (causes, impacts, regions affected and severity) [2],
    Droughts and cyclone [2] [CO1]
15. introduction and Definition of landslide[1]
    1. Risk factors: deforestation, slope instability, rainfall [3],
    2. Impacts: loss of life, infrastructure damage, economic loss [2],
    3. Example from Kerala or a real incident [1], [CO2]
16. Introduction about Natural Hazard [1]
    Early warning systems in Kerala and disaster management authority [2],
    community awareness and education programs [2],
    Infrastructure readiness and emergency services [2], [CO2]

17. Definition of flood [1]
    Flood forecasting and alert systems [2],
    Structural mitigation: levees, embankments, reservoirs [2],
    Non-structural: awareness campaigns, insurance, relocation [2,
    Conclusion or practical example [1] [CO3]

[7 × 2 = 14 marks]

…….

[All CO s against questions and Course code are correct]
