Name : .....

MAHATMA GANDHI UNIVERSITY, KOTTAYAM

MGU-UGP (HONOURS) REGULAR EXAMINATION MARCH 2025

SECOND SEMESTER

Multi-Disciplinary Courses (MDC) - MG2MDCGEO100 - NATURAL HAZARDS

(2024 ADMISSION ONWARDS)

Duration: 1 Hours **Maximum Marks: 35**

Remember(K), Understand(U), Apply(A), Analyse(An), Evaluate(E), Create(C), Skill(S), Interest(I) and Appreciation(Ap)

Students should attempt at least one question from each course outcome to enhance their overall outcome attainability.

Part A

Multiple choice

Answer all questions

Each question carries **1** marks

1. What is the primary characteristic of a natural hazard? [K] / [CO1]

   a). It always causes significant damage

   b). It is a natural process or phenomenon that can potentially cause harm to humans

   c). It only occurs in populated areas

   d). It is completely unpredictable

2. What is the primary cause of damage and loss of life during a tsunami? [K] / [CO2]

   a). Strong winds

   b). Storm surges

   c). Flooding and powerful waves

   d). Earthquakes and landslides

3. What causes tectonic plate movements that can lead to geological hazards? [U] / [CO1]

   a). Wind patterns

   b). Ocean currents

   c). Earth's internal heat and plate tectonics

   d). Atmospheric pressure changes

4. Which of the following is a biological hazard? [U] / [CO1]

a). Earthquake b). Dengue

c). Flood d). Landslide

5. Select the actions people should take if a cyclone warning is issued. [K] / [CO3]

a). Ignore the warning and continue with daily activities. b). Stay outdoors to observe the cyclone's progress.

c). Move to a safer place or shelter d). Panic and make rushed decisions that may lead to unsafe situations.

6. Identify the primary goal of community engagement in hazard management. [U] / [CO3]

a). To educate residents on hazards and risk b). To involve residents in decision making process

c). To provide resources and support for mitigation efforts d). To conduct hazard assessment and analysis

[1x6 = 6]

Part B

Short answer

Answer any **5** questions

Each question carries **3** marks

7. What is the difference between meteorological and climatological hazards? [K] / [CO1]

8. Discuss about the primary impact of Earthquake. [U] / [CO2]

9. How do natural hazards lead to loss of biodiversity? [U] / [CO1]

10. Explain the impact of urbanization on natural hazards. [U] / [CO2]

11. Define hazard mitigation and describe how flood barriers can be used as an engineering solution for hazard mitigation. [K] / [CO2]

12. Discuss the essential steps people should follow post-cyclone to protect themselves and effectively document damages. [U] / [CO3]

13. Describe the term epidemic and write about different biological health hazards. [K] / [CO3]

[3x5 = 15]

Part C

Short note

Answer any **2** questions

Each question carries **7** marks

14. Discuss major natural hazards in Kerala.	[U] / [CO1]
15. Explain landslide risk factors and list the major impacts of landslide.	[U] / [CO2]
16. Describe the key preparedness measures implemented by Kerala to address natural hazards.	[U] / [CO2]
17. Explain about preparedness and mitigation of flood.	[U] / [CO3]

[7x2 = 14]
