25900093 **Reg.No : .....**

Name : .....

MAHATMA GANDHI UNIVERSITY, KOTTAYAM

MGU-UGP (HONOURS) REGULAR EXAMINATION MARCH 2025

SECOND SEMESTER

Discipline Specific Core Course (DSC) - MG2DSCGEO100 - EXOGENOUS EARTH PROCESSES

(2024 ADMISSION ONWARDS)

Duration: 1.5 Hours **Maximum Marks: 50**

Remember(K), Understand(U), Apply(A), Analyse(An), Evaluate(E), Create(C), Skill(S), Interest(I) and Appreciation(Ap)

Students should attempt at least one question from each course outcome to enhance their overall outcome attainability.

Part A

Multiple choice

Answer all questions

Each question carries **1** marks

1. Identify the process which is responsible for the formation of clouds. [K] / [CO1]

   a). Evaporation b). Condensation

   c). Sublimation d). Precipitation

2. A stream deposit located on the inside of a growing meander. [K] / [CO3]

   a). Point bar b). Playa

   c). Spit d). Tombolo

3. Which process creates wave-cut platforms? [U] / [CO3]

   a). Deposition of sediments

   b). Transportation of materials

   c). Submergence due to rising sea levels

   d). Erosion at the base of a cliff

4. What is the name of the landscape formed by the dissolution of soluble rocks, often featuring caves, sinkholes, and underground streams? [U] / [CO3]

a). Desert b). Kast

c). Plateau d). Delta

5. Which process involves movement of sediments by waves along the coastline? [U] / [CO3]

a). Longshore drift b). Deposition

c). Erosion d). Saltation

[1x5 = 5]

Part B

Short answer

Answer any **7** questions

Each question carries **3** marks

6. Describe erosion, transportation and deposition. [U] / [CO3]

7. Explain how parent rock material influence the process of soil formation. [U] / [CO3]

8. Describe types of river terrace. [U] / [CO3]

9. What is roches mountonnee? Add a note on their process of formation. [U] / [CO3]

10. Describe wave refraction and its significance in coastal processes. [U] / [CO3]

11. What is a sand spit? How does it differ from a bar? [U] / [CO3]

12. Describe the process of erosion by glacier. [U] / [CO3]

13. Describe the importance of the atmosphere in the Earth system. [U] / [CO1]

14. Explain the three main processes of wind transportation. [U] / [CO3]

[3x7 = 21]

Part C

Short note

Answer any **3** questions

Each question carries **8** marks

15. Elaborate on products of weathering. Add a note on factors influencing weathering. [U] / [CO2]

16. Explain the factors that influence stream velocity. [U] / [CO3]

17. Discuss the significance of wind as a geomorphic agent compared to water and ice. Add a note on various erosional and depositional landforms formed due to aeolian process. [U] / [CO3]

18. Explain the development of depositional landforms associated with groundwater activity. [U] / [CO3]

19. Analyze the role of human activities in accelerating or hindering weathering. [U] / [CO2]

[8x3 = 24]
