MAHATMA GANDHI UNIVERSITY, KOTTAYAM
MGU-UGP (HONOURS)REGULAR EXAMINATIONMARCH2025
SECOND SEMESTER
MG2DSCHSC100 – PERSPECTIVESOF HOME SCIENCE - II
(2024 ADMISSION ONWARDS)

Duration:2 Hours **Maximum Marks: 50**

Remember(K), Understand(U), Apply(A), Analyse(An), Evaluate(E), Create(C), Skill(S), Interest(I)and Appreciation(Ap)

Part A

Short Answer Type Questions.

Answer any10questions. Each question carries2marks

1.When does human development start and end? [K] / [CO1]
Conception to death***(1 mark each)***

2.What are the two types of motor development? [K] / [CO1]
Gross motor and Fine motor***(1 mark each)***

3.Mention the factors that influence growth and development. [K] / [CO1]
Heredity, Sex/Gender, Ordinal position in the family, Intelligence, Nutrition, Glands of internal secretion, Physical defects. ***(Any four factors – ½ mark each)***

4.What is an intelligence test? Give examples [U] / [CO2]
Testused to measure the intelligence of an individual indirectly by testing the person's present performance in particular situation. Examples: Verbal test, Performance test etc.
(1 mark for definition and ½ mark each for any two examples)

5.What is a structured interview? [U] / [CO2]
Type of interview which involves the use of a set of predetermined questions and follows a rigid procedure.***(Two points- 1 mark each)***

6.Mention two advantages of sociometry. [U] / [CO2]
It is a technique used to find out the social relationships that exist in a group. It helps to identify stars, isolates, mutual pairs and cliques in a group.***(Two points- 1 mark each)***

7.State the key difference between formal and informal education [K] / [CO3]
Formal is structured and closed system, informal is unstructured and open system.***(1 mark each)***

8.Define needs assessment in extension education. [U] / [CO3]
Needs assessment in extension education is the process of identifying and analyzing the gaps between what people know or do***(Two points -2 mark)***

9.Why is 'satisfaction' an important step in extension teaching? [K] / [CO3]
It makes learners feel good about what they learned and encourages them to use it.
(Two points- 1 mark each)

10.What is the focus of Family Resource Management? [K] / [CO4]
Focus on effective management of human and non-human resources.Time, money energy , knowledge, attitude, skill, community resources ***(Two points- 1 mark each)***

11.How can Home Science graduates contribute to the hospitality industry? [K] / [CO4]
Linen room management, front office management, house keeping department
Graduates can be employed in any of these fields.***(Two points- 1 mark each)***

12.Name two self-employment opportunities in Home Science. [U] / [CO4]
Catering and bakery business, Boutique and textile designing, Daycare and play school services, Organic food production and marketing***(Any two points- 1 mark each)***

[2x10 = 20]

Part B

Short Essay Type Questions.

Answer any5questions. Each question carries4marks

13.Explain in brief, how the different domains of development areinterconnected. [K] / [CO1]

A child's progress in one domain influences the progress in other domains of development.Good physical health contributes to self-confidence and better social interactions. Physical activities like sports promote teamwork and leadership skills etc.***(Explanation – 2 marks and two examples – 2 marks)***

14.Differentiate growth and development. [K] / [CO1]

Growth-quantitative, observable and measurable, not continuous, part of developmental process, may or may not bring development. Development- qualitative, continues throughout life, continuous,integrated whole, possible without growth.***(Four points for each growth and development - ½ mark each)***

15.Describe the various types of observation methods and how they areconducted.[U] / [CO2]

Naturalistic - in natural settings like classroom or playground, *Participant* - observer participates in activities and record minute details, *Non-participant* -observer may not participate in the activity, but observes with high objectivity. ***(1 mark for listing the types and 1mark eachfor explaining3 types)***

16.Differentiate between evaluation and feedback. [U] /[CO3]

Evaluation: is the process of measuring the overall effectiveness or impact of a program or activity.F*eedback* is specific information given to improve performance or understanding during or after the activity.***(Description-2 marks each)***

17.What is mean by extension and extension education. [K] / [CO3]

Extension: means reaching out to people to share useful knowledge

Extension education:is the process of teaching and helping people apply this knowledge in their daily lives. ***(Definition and description of both -2 marks each)***

18. Suggest one way in which Home Science knowledge can help incommunity development. [U] / [CO4]

Home Science knowledge can help in community development by teaching families better nutrition and health practices,etc. -leading to improved overall well-being.(***Any two points-2 marks each)***

19.Describe two benefits of Home Science extension programs. [U] / [CO4]

Improved quality life, empowerment and income generationetc.***(Description of any two poinst-2 marks each)***

[4x5 = 20]

Part C

Essay Type Questions. Answer any1question.

Each question carries10marks

20.Assess the need for participatory approaches in extension education. [U] / [CO3]

Definition,Meaning and need - promote local language, enhance relevance, improve learning, strengthen community relationship, encourage sustainable practices.empower individuals, etc. (Definition -***2 marks***. Meaning ***2 marks.*** Need - ***four points- 1½ mark each***)

21.Describe projective techniques and case study method in child study. [U] / [CO2]

Projective techniques are used to assess the personality of a person. The individual unconsciously projects his personality through his responses to a given situation which is further analysed. Case study is a method involving an in-depth and detailed examination of a particular case.***(5 marks for explaining each method)***

[10x1 = 10]
