Part B

21. How is video advertising effective in capturing consumer attention?
    Ans- Capture attention by combining compelling visuals and audio, making more engaging and memorable by faster processing, can create an emotional connection, using narratives , use of music or sound enhance emotional impact.
22. Demonstrate how a demonstrative advertisement could effectively market a cleaning product.
    Ans- A TV ad could show the cleaning product removing stains instantly, proving its efficiency

through side-by-side comparisons with other cleaners (other relevant examples can be accepted).

23. Describe how the Big Five Personality Traits affect consumer behavior.
    Ans- Openness → Prefers novelty, enjoys trying new brands.
    Conscientiousness → Loyal to brands, prefers reliability.
    Extraversion → Seeks social, trendy products.
    Agreeableness → Chooses ethical brands, avoids conflict.
    Neuroticism → Influenced by emotions, brand security matters.
24. Explain briefly about benefits of mobile billboard ads.
    Ans- Reach a wider audience,attract potential customers as billboard trucks pass through high traffic areas, targeted marketing, most cost-effective method, easily changed to new products , a creative way to engage consumers, allowing stand out in a crowded market.
25. What is the link between culture, subculture, and consumer behavior?
    Ans- They help shape a consumer's values, beliefs, and purchasing decisions. Culture and subculture can further be described in relation to consumer behaviour.
26. What are the challenges of reaching a large audience through radio advertising?
    Ans- Radio advertising rates are generally negotiable, depending on factors like airtime, frequency, and station popularity. This flexibility allows businesses to plan their advertising budgets effectively and maximize their return on investment.
27. Describe how self-esteem affects consumer decisions.
    Ans- Self-esteem significantly influences consumer decisions by shaping how individuals perceive themselves and what they believe will enhance their self-image. People with high self-esteem tend to make confident, autonomous choices and often seek products that reflect their identity or personal values. In contrast, those with low self-esteem may be more influenced by external opinions, advertising, or trends, choosing products that they believe will boost their self-worth or gain social approval. Thus, self-esteem impacts not only what consumers buy, but also why they buy it.
28. Demonstrate how a company can strategically introduce a brand extension to ensure consumer acceptance.
    Ans- A company can introduce an extension by emphasizing its alignment with the brand's core attributes. For example, if Rolex introduced smartwatches, they could highlight premium materials, craftsmanship, and exclusivity to maintain brand integrity while entering a new category.
29. Explain the purposes of in-store ads.
    Ans- To grab attention, boosts brand awareness, provides targeted messaging opportunities, drives impulse buys.
30. Simplify the concept of psychological analysis of an advertisement.
    Psychological analysis of an advertisement studies how it affects the viewer's mind. It explores emotions, thoughts, and motivations triggered by the ad. The ad's visuals, words, and symbols are examined for deeper meaning. It helps understand how attitudes toward a product or brand are formed. It reveals why an ad succeeds in influencing consumer behavior.
31. What are the ethical considerations in advertising?
    Ans- Ethical advertising ensures honesty, avoids misleading claims, and respects consumer rights.
32. Define intrinsic and extrinsic motivation with examples.

Ans- Intrinsic motivation is driven by internal rewards, such as personal satisfaction (e.g., painting for enjoyment). Extrinsic motivation is driven by external rewards, such as money or recognition (e.g., studying to get good grades).

33. How can a brand effectively use emotional tone to create an empathetic connection with its audience?

    Ans- The brand Can Use Emotional Tone to Create an Empathetic Connection with Its Audience- Using Storytelling to Evoke Emotions- Brands can create ads that tell relatable stories, making consumers feel understood and emotionally connected. For example, an advertisement showing a struggling student receiving a scholarship evokes emotions of hope and gratitude. Aligning Tone with Audience Values- A brand must choose an emotional tone (e.g., warmth, inspiration, humor) that resonates with its target audience. For instance, a healthcare brand may use a compassionate and reassuring tone to comfort patients. Incorporating Music, Colours, and Language- Soft music, warm colours, and heartfelt language enhance the emotional appeal of an ad, making consumers feel more connected. Emotional ads are more memorable and encourage brand loyalty.
