MAHATMA GANDHI UNIVERSITY, KOTTAYAM

MGU-UGP (HONOURS) Regular EXAMINATION October 2025

Third SEMESTER

Discipline Specific Core Course (DSC)-MG3DSCBOT201

Discipline Specific Elective (DSE)-MG3DSEBBT200 - MYCOLOGY AND PLANT PATHOLOGY

(2024 ADMISSION ONWARDS)

Duration: 1 Hour 30 Minutes **Maximum Marks: 50**

Remember(K), Understand(U), Apply(A), Analyse(An), Evaluate(E), Create(C), Skill(S), Interest(I) and Appreciation(Ap)

Students should attempt at least one question from each course outcome to enhance their overall outcome attainability.

Part A

Short answer type questions

Answer any **10** questions

Each question carries **1** marks

1. What is the function of the urediniospores in Puccinia? [K] / [CO1]
2. What is the main method of asexual reproduction in Xylaria? [K] / [CO1]
3. Whether members of Myxomycotina are Eucarpic or Holocarpic? [U] / [CO1]
4. As per Ainsworth's fungal classification, which are the classes under the division Myxomycota. [K] / [CO1]
5. Name a fruticose lichen. [K] / [CO1]
6. Name one lichen used in perfumery. [K] / [CO2]
7. Define the term Parasite? [K] / [CO3]
8. Give any one mode of tansmission of plant pathogens [U] / [CO3]
9. Distinguish between hyperplasia and hypoplasia. [U] / [CO3]
10. What is Leaf mosaic disease of Tapioca? [U] / [CO3, CO4]

11. Mention any two disease resistant variety of rice? [K] / [CO4]

12. Mention an example of a therapeutic measure in plant disease management. [K] / [CO4]

[1x10 = 10]

Part B

Short Essay type questions

Answer any **6** questions

Each question carries **5** marks

13. Describe the thallus of Agaricus and its characteristic features, including the role of the mycelium and the formation of basidiocarps. [K] / [CO1]

14. Explain the role of the conidia in the life cycle of Fusarium, including their formation, dispersal, and germination. [K] / [CO1]

15. Differentiate between zoosporangia and conidia in albugo. [U] / [CO1]

16. Differentiate between upper cortex and lower cortex of Parmelia thallus. [U] / [CO1]

17. Explain mycorrhiza its types, structure, and significance. [U] / [CO2]

18. What are phytoalexins ? Give examples [K] / [CO3]

19. List any five advantages of biological control. [K] / [CO4]

20. Describe the thallus structure and vegetative reproduction of Saccharomyces [U] / [CO1]

[5x6 = 30]

Part C

Essay type questions

Answer any **1** questions

Each question carries **10** marks

21. Describe in detail the vegetative body and asexual reproduction in Rhizopus. [U] / [CO1]

22. Discuss the role of fungi in the production of alcohol, beer, wine, and fermented food products. [U] / [CO2]

[10x1 = 10]
