25900348 **Reg.No : .....**

Name : .....

MAHATMA GANDHI UNIVERSITY, KOTTAYAM

MGU-UGP (HONOURS) Regular EXAMINATION October 2025

Third SEMESTER

Discipline Specific Elective (DSE) - MG3DSEECO204 - NAVIGATING SURVEYS FOR ACADEMIC AND PROFESSIONAL SUCCESS

(2024 ADMISSION ONWARDS)

Duration: 2 Hours **Maximum Marks: 70**

Remember(K), Understand(U), Apply(A), Analyse(An), Evaluate(E), Create(C), Skill(S), Interest(I) and Appreciation(Ap)

Students should attempt at least one question from each course outcome to enhance their overall outcome attainability.

Part A

Multiple Choice Question

Answer all questions

Each question carries **1** marks

1. A research approach focusing on “cause-and-effect” relationships is called: [U] / [CO1]

   a). Historical research b). Analytical research

   c). Experimental research d). Exploratory research

2. Which sampling method ensures every member of the population has an equal chance of being selected? [K] / [CO1, CO2, CO3, CO4, CO5, CO6]

   a). Convenience sampling b). Purposive sampling

   c). Simple random sampling d). Snowball sampling

3. State which diagram uses maps resized to data values. [U] / [CO5]

   a). Pictogram b). Cartogram

   c). Bar diagram d). Radar chart

4. Which of the following best describes a Pivot Table in spreadsheet applications? [U] / [CO6]

a). A chart type used for graphical representation only

b). A tool to summarize, analyze, and reorganize data

c). A formula used for calculating totals

d). A function for arranging data alphabetically

5. Historical research focuses on: [U] / [CO1]

a). Past events and their interpretation

b). Present-day classroom practices

c). Future predictions

d). Controlled experiments

6. A survey in research refers to: [U] / [CO2]

a). Intensive study of a single case

b). Systematic collection of data from a sample or population

c). Controlled laboratory experiment

d). Historical review of past events

7. The key difference between a conceptual and a theoretical framework is that: [K] / [CO1, CO2, CO3, CO4, CO5, CO6]

a). Conceptual frameworks are based on philosophy only

b). Theoretical frameworks are used in engineering only

c). Conceptual frameworks are built around specific variables and their relationships

d). Theoretical frameworks do not use models

8. Identify an example of chart: [U] / [CO5]

a). Pictogram

b). Pie chart

c). Flow chart

d). Cartoon

9. Why must the sampling plan align with research objectives? [K] / [CO1, CO2, CO3, CO4, CO5, CO6]

a). To reduce the cost of research

b). To ensure the sample size is large

c). To ensure data collected is relevant and valid

d). To make the report longer

10. Pilot survey improves validity by [U] / [CO4]

a). Eliminating random errors

b). Testing questions before main study

c). Avoiding literature review

d). Skipping data coding

[1x10 = 10]

Part B

Short Answer

Answer any **10** questions

Each question carries **3** marks

11.	Explain a significant limitation of Diagnostic Research when applied to complex social problems (like poverty).	[U] / [CO1]
12.	List out various methods used for collection of Primary Data	[A] / [CO1, CO2, CO3, CO4, CO5, CO6]
13.	Explain the term reliability in research.	[U] / [CO4]
14.	Describe how does a researcher select his topic for research ?	[U] / [CO1, CO2, CO3, CO4, CO5, CO6]
15.	Apply coding to classify income groups.	[A] / [CO4]
16.	Analyse how following proper survey steps ensures reliable data.	[An] / [CO2]
17.	What is quota sampling?	[K] / [CO1, CO2, CO3, CO4, CO5, CO6]
18.	Differentiate histogram and frequency polygon.	[U] / [CO5]
19.	What is the main difference between descriptive and inferential analysis?	[U] / [CO1, CO2, CO3, CO4, CO5, CO6]
20.	Distinguish between primary data and secondary data.	[An] / [CO2]
21.	Analyse the comparative advantages and limitations of census and sample methods.	[An] / [CO3]
22.	Differentiate between general objectives and specific objectives in research.	[An] / [CO1, CO2, CO3, CO4, CO5, CO6]
23.	Define a frequency table.	[K] / [CO5]
24.	What is the primary purpose of engaging in scientific inquiry?	[U] / [CO1]
25.	Explain what is an operational definition in research?	[U] / [CO1, CO2, CO3, CO4, CO5, CO6]

[3x10 = 30]

Part C

Short Essay

Answer any **5** questions

Each question carries **6** marks

26. Analyse how case study and field study methods are applied in social and economic research.	[An] / [CO2]
27. Why is randomness important in cluster sampling?	[K] / [CO1, CO2, CO3, CO4, CO5, CO6]
28. Discuss the essential qualities of a good interviewer.	[U] / [CO4]
29. Evaluate the usefulness of reports in organizational decision-making.	[E] / [CO1, CO2, CO3, CO4, CO5, CO6]
30. Explain participatory observation with examples.	[U] / [CO4]
31. Discuss with examples how applied research helps in solving real-world social and economic problems.	[An] / [CO1]
32. Explain the role of a literature review in the conceptual phase of a research design	[U] / [CO1, CO2, CO3, CO4, CO5, CO6]
33. Discuss the objectives of editing.	[U] / [CO5]
34. Describe the different types of social and economic surveys with suitable examples.	[U] / [CO2]
35. Why is it necessary to state the significance of a research study?	[An] / [CO1, CO2, CO3, CO4, CO5, CO6]

[6x5 = 30]
