(1x10=10)

PART B
Short Answer
Answer any 6 questions. Each question carries 5 marks.

11. **Mass communication** targets large, dispersed audiences through mass media, without direct sender-receiver interaction- deliver a single message to millions simultaneously. **Interpersonal communication** - direct, person-to-person contact using spoken words, facial expressions, gestures, postures, and tone of voice. **Group communication** expands this to more than two people, allowing exchange of ideas, experiences, and information, supporting collective decision-making. [U/CO1]
12. In the post-independence era, Bengali film makers like **Satyajit Ray, Ritwik Ghatak and Mrinal Sen** elevated Indian cinema on the global stage, crafting films grounded in realism, humanism and visual sophistication. [U/CO1]
13. **Selective Sound** facilitates focused listening-choosing which sounds to emphasise and which to mute-guide the viewer's attention to important details or emotions. In a suspense scene, only the sound of a ticking bomb is heard, while other background noises disappear. [U/CO3]
14. Extreme Long Shot (**ELS**): The camera is at the farthest distance from the subject - ESL emphasises background and spatial scale - invariably used at the beginning of scenes to set the stage with sweeping views (e.g., city skyline, farm, beach). [U/CO3]
15. TV scripts are written to be heard - Sentences must be short, clear, without jargon, complex vocabulary, or long explanations - **Conversational**. Television news is fast paced, emotionally engaging and visual. News in TV is not just about telling the story – it is about showing the story - **visual-driven.** [U/CO3]
16. AIR introduced **FM** in 1977 - real thrust came in 1993 - AIR allowed private companies to buy time slots on AIR FM, through commercial time - July 2005, the second phase of radio privatization bidding was made transparent - FM become so popular as there was

the freedom to do anything - no pre-censorship - the lively approach made it popular with youngsters - remains a popular a local medium. [U/CO2]

17. **Press Trust of India** (PTI): - largest news agency in India - provides news in English and Hindi - a non-profit organization - a major source of news for various media outlets, including newspapers, television channels, and online platforms. [U/CO2]
18. News is verifiable information - accuracy and verification are the essence of journalism '**fake news**' is an oxymoron - undermining the credibility of information. [U/CO4]
19. **Web 2.0** introduced the principle of many-to-many - transformed the concept of accessibility empowering users to create, distribute and share content - Web 2.0 pioneers developed and deployed on the World Wide Web - free tools revolutionised the way internet was used. [U/CO4]

(5X6=30)

PART C

Essay

Answer any 2 questions. Each question carries 15 marks.

20. 1. **The Medium, Not the Message** (Marshall McLuhan) electronic media exert a profound influence on human behaviour, not through the messages they convey, but through the sensory environment they create. 2. **Reinforcement Theory** (Joseph Klapper) mass media primarily reinforces existing beliefs, values and social norms rather than introducing significant change. 3. **Narcotising Dysfunction** (Lazarsfeld and Merton) Exposure to a constant stream of information result in superficial awareness without corresponding engagement.4. **Catharsis Theory** (Seymour Feshbach) media serve as a psychological outlet, allowing individuals to purge aggressive/ antisocial emotions through vicarious experiences. 5. **Media as Windows on the World** (Edward Shils and David M White) democratise access to cultural content by making more of the good accessible to more people. 6. **Corruptive Effects** (Fredric Wertham) media content fosters materialism, antisocial behaviour and emotional desensitisation causing damage to moral and social development. [U/CO1]
21. **Types of news 1**.**Direct/Straight news** is a straight forward account of a happening. It usually answers five Ws (what, when, where, who, why) and one H (how). These five Ws and one H are known as news elements. Three key parts of a news story are the headline, the lead and remainder. **2**. **Feature** - It goes beyond a direct news story. It explores the background, probes in depth an idea or event. [U/CO2]
22. **1.**The **human eye** sees everything it focuses on X the **camera** depends on the aperture to control focus and light. **2.** The eye can adapt instantly to brightness changes and see both bright and dark details simultaneously X the camera captures either bright or dark tones. **3.** Human vision is binocular X vision of the camera is monocular, appear flat**. 4**. The eye is selective and guided by the brain X The camera records each and every aspect of what it is focused on.**5**. The angle of view of the human eye is fixed X The angle of view of a camera varies from very narrow to 180°. Photographers must learn to see critically, understanding perspective, colour, and light to bridge the gap between human vision and the camera's limited ability, creating images that convey the intended mood and depth. [U/CO3]
23. **Mobile Journalism** (Mojo) highlights the trend of using a single mobile device to serve the purpose of a range of devices - Mobile devices and apps simplify the process of getting content from the field to the audience - Mobile Journalism makes possible the active role that ordinary man gathering, reporting, analysing and disseminating information through online social networking platforms - launched the idea of citizen journalism. [An/CO4]
