MAHATMA GANDHI UNIVERSITY, KOTTAYAM

MGU-UGP (HONOURS) Regular EXAMINATION October 2025

Third SEMESTER

Discipline Specific Elective (DSE) - MG3DSEFSQA00 - INTRODUCTION TO ONBOARD FOOD SERVICE SYSTEMS

(2024 ADMISSION ONWARDS)

Duration: 2 Hours **Maximum Marks: 70**

Remember(K), Understand(U), Apply(A), Analyse(An), Evaluate(E), Create(C), Skill(S), Interest(I) and Appreciation(Ap)

Students should attempt at least one question from each course outcome to enhance their overall outcome attainability.

Part A

MCQ

Answer all questions

Each question carries **1** marks

1. Identify how is food commonly preserved for space missions? [U] / [CO1]

   a). A. Freezing and dehydrating b). B. Only frying

   c). C. Open air drying d). D. Storing in glass jars

2. Identify a common challenge in airline catering? [U] / [CO1]

   a). A. Maintaining food quality at high altitude b). B. Reducing ticket costs

   c). C. Limiting entertainment services d). D. Increasing baggage allowance

3. Identify which was one of the earliest modes of transport to introduce onboard catering services? [U] / [CO1]

   a). A. Cruise ships b). B. Airlines

   c). C. Trains d). D. Buses

4. Identify in what way good food service can promote travel comfort. [U] / [CO1]

a). A. By reducing hunger and stress

b). B. By increasing ticket costs

c). C. By shortening luggage checks

d). D. By reducing travel distance

5. The overall purpose of onboard food service across transport systems is: [U] / [CO1]

a). A. To increase competition

b). B. To enhance passenger experience during travel

c). C. To reduce the number of staff

d). D. To make travel faster

6. State what should the crew do if equipment used for food service is damaged? [U] / [CO2]

a). Report and avoid using it

b). Continue using it

c). Ignore the issue

d). Serve without cleaning

7. Identify why hygiene is important during food storage? [U] / [CO2]

a). To prevent foodborne illness

b). To reduce portion size

c). To add flavor

d). To speed up service

8. Identify the primary purpose of galley equipment in an aircraft? [U] / [CO2]

a). To prepare and store meals safely

b). To entertain passengers

c). To increase ticket sales

d). To decorate the cabin

9. Identify which step should cabin crew follow before serving food? [U] / [CO2]

a). Check sanitation and hygiene

b). Serve drinks first

c). Skip safety checks

d). Ask passengers to cook

10. Write as to why galley surfaces should be sanitized regularly? [U] / [CO2]

a). To reduce microbial contamination

b). To make them shiny

c). To pass time for crew

d). To impress passengers

11. Why is hygiene important in mobile food service? [U] / [CO3]

a). To increase ticket sales b). To prevent foodborne illnesses

c). To reduce travel time d). To manage train schedules

12. Vending machines improve passenger experience [U] / [CO3]

a). By providing easy access to food and drinks b). By cleaning compartments

c). By slowing down boarding d). By checking luggage weight

13. The important factor for planning meals during long train journeys is [U] / [CO3]

a). Nutritional balance b). Painting pantry car

c). Changing train engines d). Printing tickets

14. Which of the following is a regional preference in North India? [U] / [CO3]

a). Fried rice with kimchi b). Sushi rolls

c). Chapati and dal d). Hot dogs

15. Interpret which safety measure is important in terminal-based catering? [U] / [CO3]

a). Proper storage and temperature control b). Monitoring train tracks

c). Checking passenger tickets d). Controlling train speed

16. Assess why vitamin D supplementation is essential for astronauts. [An] / [CO4]

a). A. Due to limited sun exposure in space b). B. For better taste

c). C. To regulate sugar d). D. To prevent vision loss

17. Recognize the rule linked with passenger food safety in cruise dining. [An] / [CO4]

a). Port health inspection b). SOLAS

c). International Labour Law d). UN Trade Rules

18. Evaluate the effect of scheduled deep cleaning on cruise food safety. [An] / [CO4]

a). A. Lowers staff morale b). B. Ensures microbial control and regulatory compliance

c). C. Increases entertainment time d). D. Reduces food portions

19. Determine the challenges in heating food during space missions. [An] / [CO4]

a). A. Heats automatically

b). B. Uses sunlight only

c). C. Limited by equipment and no open flame allowed

d). D. Same as a microwave

20. Infer which rule ensures that specialty dining kitchens meet international sanitation standards. [An] / [CO4]

a). WHO sanitation code

b). Ship navigation law

c). FAO trade rules

d). Port customs law

[1x20 = 20]

Part B

Short Answer

Answer any **6** questions

Each question carries **5** marks

21. Describe how food services onboard improve the overall travel experience. [U] / [CO1]

22. Describe the importance of personal hygiene of food handlers in flight catering units. [U] / [CO2]

23. Explain how passenger feedback is incorporated into onboard catering services. [U] / [CO3]

24. Demonstrate as to how the airlines accommodate diabetic passengers? [U] / [CO2]

25. List two cultural benefits of offering regional dishes onboard. [U] / [CO1]

26. Explain why food service is important for passengers on cruise ships. [U] / [CO1]

27. Explain the function of cooking equipment in a pantry car. [U] / [CO3]

28. Differentiate between packaging methods used on Earth and in space. [An] / [CO4]

[5x6 = 30]

Part C

Essay

Answer any **2** questions

Each question carries **10** marks

29. Analyze how hygiene and cleaning routines are planned on a cruise ship. [An] / [CO4]

30. Discuss the safety, hygiene, and sanitation measures incorporated in pantry car design. [U] / [CO3]

31. Discuss the definition and scope of onboard food service with suitable examples. [U] / [CO1]

32. Explain how special meal planning enhances the overall food service system onboard. [U] / [CO2]

[10x2 = 20]
