MAHATMA GANDHI UNIVERSITY, KOTTAYAM

MGU-UGP (HONOURS) Regular EXAMINATION October 2025

Third SEMESTER

Discipline Specific Core Course (DSC) - MG3DSCFSC200 - CRIME SCENE MANAGEMENT

(2024 ADMISSION ONWARDS)

Scheme for evaluation

PART A – Short Answer Type Questions (2 × 10 = 20 marks)

1. Property: Viscosity, adherence, non-volatility , it helps in trace vehicle origin. (1+1 marks)
2. **Zone/ Grid/ Wheel search method** – systematic, suitable for large outdoor areas, with suitable explanation. (1+1 marks)
3. Documentation ensures **admissibility, validation or any relevant two reasons** (1+1 marks)
4. Explanation of corroborative evidence - **Corroborative evidence** supports other evidence; strengthens case reliability. (1+1 marks)
5. Grid search ensures **complete coverage, reduces missed evidence.** (1+1 marks)
6. Maintaining integrity ensures **chain of custody, prevents tampering, ensures legal admissibility.** (1+1 marks)
7. Importance of crime scene reconstruction (Establishing series of events, sequence of events) and methods used. (1+1 marks)
8. Any two biological evidence Examples: **Blood, hair, saliva, semen, tissue.** (1+1 marks)
9. Air-dry biologicals, use paper bags, seal properly, label immediately. Any two methods (1+1 marks)
10. Documentation preserves **admissibility, validation, evidence integrity and legal reliability.**
    (1+1 marks)
11. Indoor: controlled environment, inside building or closed environment ; Outdoor: exposed to weather & contamination. (1+1 marks)
12. RFID tags improve **traceability, storage, and chain of custody.** Any two explanations (1+1 marks)

PART B – Short Essay Type Questions (4 × 5 = 20 marks)

(Answer any 5 questions)

13. Steps: (1) Approach scene safely- Providing first aid to victim if alive, (2) Secure perimeter, (3) Control entry, (4) Log persons, (5) Initial documentation (Photography and videography). Explanation of each steps (1 mark per valid point (4 marks))

14. Explain the baseline method of sketching (1mark)- Provide Strengths: Simple, easy, quick (1.5 marks); Weaknesses: unsuitable for irregular scenes, limited accuracy (1.5 marks).

15. Explain the photography method of Documentation- Significance: Permanent visual record, supports reconstruction, admissible evidence, helps in reports. (4 marks)

16. Importance of ABFO scale- L scale. (1 mark)L-scale: provides reference scale in photos, ensures accurate measurement, orientation, and comparison. (any 3 valid points- 3 marks)

17. Definition of Fragile evidence: easily lost/damaged (e.g., footprints, blood drops); requires prompt collection. (3 marks), relevant example (1 marks)

18. Fingerprint collection: powder & brush (2 marks) , lifting tape, labeling, storing properly. (2 marks)

19. Explanation of circumstantial evidence: indirect proof (e.g., weapon with suspect's fingerprints) (2 marks), aids inference of guilt. Relevant example (2 marks)

PART C – Essay Type Questions (10 × 1 = 10 marks)

(Answer any one question)
Each question carries **10 marks.**

20. **Search methods comparison:**
    – Introduction (2 Marks)
    – Line/Strip, Grid, Spiral, Zone methods explained each with diagram (6 Marks)
    – Comparative discussion of advantages & limitations (2 Marks)
21. **Collection & Preservation:**
    Scene protection (2 Marks),
    evidence collection principles (2 Marks),
    packaging (3 Marks),
    preservation (2 Marks),
    chain of custody (1 Marks).
