Answer Key

Course Code: MG3DSCMBG203 – Foodborne Diseases, Food Sanitation and Food Safety

Exam: Third Semester B.Sc. (Microbiology) – Mahatma Gandhi University, October 2025

Part A – Multiple Choice (1 mark each, Total = 10 marks)

1. Living bacteria are ingested
2. Intestine
3. Faecal oral route
4. Pesticides
5. Aspergillus
6. Liver
7. Faecal oral route
8. Salmonellosis
9. Faecal oral route
10. Good manufacturing practices

Part B – Fill in the Blanks (5 × 1 = 5 Marks)

11. Penicillium
12. Diarrhoea
13. Observers
14. Critical control point
15. Preventive

Part C – True or False (5 × 1 = 5 Marks)

16. True
17. True
18. False
19. False
20. False

Part D – One Word Answers (Any 10 × 1 = 10 Marks)

21. Poisoning caused by mycotoxins
22. Food Safety and Standards Authority of India
23. To facilitate recycling and proper disposal

24. Ministry of Agriculture and Farmers Welfare

25. Contaminant that causes harm through chemicals

26. Faecal-oral route

27. Faecal-oral route

28. Salmonella typhi

29. Around pH 6–7

30. Listeria monocytogenes

31. Lowers surface tension and helps removal of dirt

32. Physical hazard

Part E – Short Answer Questions (Any 4 × 3 = 12 Marks)

33. Proper storage, prevention of cross-contamination, temperature control, and hygiene.

34. CIP definition, advantages (less labour, effective cleaning), disadvantages (cost, fixed system).

35. Treatment of polio: supportive care, physiotherapy, vaccination prevention.

36. Causes: *Vibrio cholerae*; symptoms: watery diarrhoea, dehydration, vomiting.

37. *Entamoeba histolytica*: ingestion of cysts, intestinal invasion, dysentery.

38. ISO 22000:2018 benefits – global recognition, improved food safety, and consumer trust.

Part F – Long Answer Questions (Any 1 × 8 = 8 Marks)

39. Botulism – Causative agent (*Clostridium botulinum*), incubation period (12–36 h), clinical features (paralysis, blurred vision, respiratory failure), prevention (proper canning, boiling, hygiene).

40. Quality Control Officer – Responsibilities: raw material inspection, process monitoring, record keeping, GMP, hygiene, testing, FSSAI/ISO compliance, corrective actions.
