Scheme – VAC (MG3VACMBG2O1) Sensory evaluation of foods

Part A – Multiple Choice Questions

(Answer all – 10 × 1 = 10 marks)

1. Carrots **(1mark)**
2. Texture **(1mark)**
3. To provide uniform guidance. **(1mark)**
4. Two **(1mark)**
5. Triangle test **(1mark)**
6. 6 to 9 **(1mark)**
7. Category scaling **(1mark)**
8. Minimum concentration at which a stimulus is noticed **(1mark)**
9. Strong rejection **(1mark)**
10. Pleasure-related response **(1mark)**

Part B – Fill in the Blanks

(Answer all – 5 × 1 = 5 marks)

11. Flavour factors **(1mark)**
12. Scalar difference **(1mark)**
13. Short sniffs **(1mark)**
14. Booths/cubicles **(1mark)**
15. Affective tests **(1mark)**

Part C – True or False (5 × 1 = 5 marks)

16. False **(1mark)**
17. False **(1mark)**
18. True **(1mark)**
19. False **(1mark)**
20. False **(1mark)**

Part D – One Word Answers (5 × 1 = 5 marks)

21. Colour, flavour, texture, appearance, aroma **(1mark)**
22. Visual characteristics of food **(1mark)**
23. Clear and unbiased instructions**(1mark)**
24. By ranking samples numerically**(1mark)**
25. Ranking test**(1mark)**

Part E – Short Answers (Any 5 × 2 = 10 marks)

26. Flavour = combination of taste + aroma; important for food acceptability. **(2 marks)**
27. Should be healthy, unbiased, non-smoker, sensory sensitivity. **(2marks)**
28. Poor airflow may cause odour contamination, fatigue, inaccurate judgement. **(2marks)**

29. To measure difference intensity between control and test sample. **(2 marks)**
30. Scorecard: 3 samples (A,B,C); **(1 marks)** identify odd sample; indicate correct/incorrect. **(1 mark)**
31. Category scaling definition **(1 marks)** – fixed scale; Ratio scaling – proportional judgement. **(1 mark)**
32. Hedonic 9-point scale **(1 mark)** mark "Dislike extremely." **(1 mark)**
33. Beer sommelier: evaluate beer flavour, pairing, presentation, service. **(2 marks)**

Part F – Long Answers (Any 3 × 5 = 15 marks)

34. Trained and untrained panel **(2.5 marks)** – qualification, purpose, examples, accuracy. **(2.5 marks)**
35. Facility: preparation area, testing booths, lighting, ventilation, sample coding.
36. Triangle test: 3 samples (2 same, 1 different); random order; record responses; analyse % correct. **(2.5 marks)**
37. Flavour profile = aroma & taste terms; **(2.5 marks)** Texture profile = physical attributes; method, scale, comparison. **(2.5 marks)**
38. Hedonic scale measures consumer preference; **(2 marks)** 9-point scale; used in product development & acceptance. **(3 marks)**
