16 Print media offers details and interpretation. Broadcast media offers headline service. Broadcast media reports events as live news. Print is hampered by literacy barrier.
17 Any event that affects a large number of people in a society constitutes news. Key news values include proximity, timeliness, prominence, currency and impact.
18 Timeliness refers to how long ago an event happed. For instance latest developments in a political scam will become major news. Proximity suggests that events that occur close at hand will receive more attention than those occurring in far away places. For instance a small communal riot in India will receive more attention than a major civil war in Africa
19 Ethical considerations involve checking the veracity of facts that a journalist peddles. Journalist should adhere to the principles of verification,fairness, balance and objectivity.

20 SEO is a set of practices that can help improve the visibility, credibility and audience engagement of a blog. SEO can help blogs rank higher in search results, which can lead to more traffic and conversions

21 Inverted pyramid style arranges facts in their descending order of importance. The most significant dimensions of the story are rendered in the beginning. Narrative style adopts short story structure in news writing.

22 News feature, profile, human interest story, photo feature and commemorative feature.

23 Knowing the audience and integration of multimedia elements are the two major challenges when creating digital stories.

Part C

Essay Type Questions (350 Words) Answer any two questions.
each question carries 10 marks

24 Media writers face challenges from prevalence of fake news, extreme speech and increasing polarization in public debate. Information fatigue, eco chambers and filter bubbles contaminate the information ecology.

25 Inverted pyramid style remains the most popular news writing from mid-19th century because of its utility for readers and news people alike. Pyramid style employs narrative techniques to sustain the interest of the reader. Hour glass combines the strengths of the two above mentioned styles though it is not applicable to all news events.

26 Radio talk, interview, discussions, documentaries, features, sit-coms, phone-in programs, news, music and drama

27 For bloggers AI can assist in drafting posts, optimizing SEO and improving language quality. AI-driven tools for video editing, voice recognition and personalization will allow efficient content organization and enhanced audience engagement and loyalty for vloggers. Augmented reality and Virtual reality will provide experience of immersive interaction for audience.
