MAHATMA GANDHI UNIVERSITY KOTTAYAM

FIRST SEMESTER UGP (HONOURS) REGULAR

EXAMINATION NOVEMBER 2024

MG1 DSC PHL 100- DEDUCIVE LOGIC

TOTAL MARKS: 70

QP CODE:24900201

PART A

ANSWER ANY 8 QUESTION

EACH QUESTION CARRIES 2 MARKS

1. All men are intelligent

No men are intelligent

A&E proposition contrary relation

2. Derive a new conclusion from the known premises

3. Logically follow premises-arguments structure-not truth of premise

4. two contradictory qualities to same subject not possible-A cannot be both B and not B at a time

5. Correspondence to reality

6. Base for an argument-conclusion logically derive from premisee

7. Validity- structure of an argument- truth of the proposition soundness

8. Mortal

9. Complete exclusion - denial of subject predicate relation

10. Subject term- birds

11. Validity- structure of an argument- truth of the proposition soundness

12. Leibnitz- nothing happened in this world without a reason

(8X2=16)

Part B

SHORT ESSAY
ANSWER 6 QUESTIONS
EACH QUESTION CARRIES 5 MARKS

13. Communication- express thought- emotive- cognite - definitions- informative

14. Propositions are true - correspondance to reality - validity depends on the structure -logically follow premises

15. Interchange subject and predicate -SAP-All S is P- All Pis S

SEP-No S is P- PES- No p is S-SIP-some S is P-PIS-some P is S- SOP-some S is not P-POS-some P is not S

16. Induction - particular premises-universal conclusion- based on material validity- Deduction - universal to particular-formal validity

17. Derive a conclusion from simple premise-obversion- conversion -contraposition

18. Categorical- conditional- categorical - A,E,I,O- conditional-hypothetical-if…then,disjunctive-either…or

19. Major premise-minor premise - conclusion- three terms- major - minor-middle

20. Affirms or denies- define the relation between subject and predicate- affirmative- negative- universal affirmative - particular affirmative-universal negative- particular negative

21. Distributed entire extension- un distributed partially- universal affirmative- subject distributed -predicate - un distributed -E - universal negative- both the term distributed- I particular affirmative- none of the term distributed- O proposition - subject un distributed- Predicate distributed

22. Law of identity- A is always A- law of non contradiction- A cannot be B and not B at same time-law of excluded middle- A can either B or not B- sufficient reason- no reasonless or causeless event

(6X5=30)

PART C

ANSWER 2 QUESIONS

EACH QUESTION CARRIES 12 MARKS

23. Formal and material- deduction- induction- inference - normative science- proposition-

24. Categorical- conditional- categorical - A,E,I,O- conditional-hypothetical- if…then,disjunctive-either…or

25. Distributed entire extension- un distributed partially- universal affirmative- subject distributed -predicate - un distributed-I particular affirmative- none of the term distributed- differe in quanity- not in quality

26. All who hold properties are citizen- converse -some citizens are property holders- obversion- All who hold property are citizen - obverse- No property holders are non citizens- contra posion- All who hold property are citizens- All non citizens are non property holders-

Square of opposition- A-All who hold properties are citizen- E- No one who hold properties are non citizens-I some who hold properties are citizens- O- some who hold properties are not citizens

(2X12=24)
