   - Non-monetary incentives Like challenging job, appreciation of work done, social recognition, participation in management etc…
4. **esprit de corps[U][1]**

Esprit de corps means the spirit of loyalty and devotion to the group, to which one belongs. As per this principle, there should be cooperation and teamwork among the members of an organisation.

5.**Difference between recruitment and selection[U][2]**

- Recruitment is the process of searching for prospective employees. and stimulating them to apply for jobs in the organisation.
- Selection involves a series of steps whereby candidates are screened to find out which one is best suited for the organisation

6. Discuss the term **"coordination" in an organizational context.[U][3]**

Coordination is the orderly arrangement of dissimilar groups of activities to attain the common goal of business. it is the process of unifying harmonising, and integrating the functions of different specialised departments and tasks to obtain maximum benefit with minimum cost

7 **Difference between corporate-level and business level strategies[K][4]**

- Corporate level strategy

It is concerned with the overall direction and scope of an organisation and how value will be added to the different business units of the organisation

- Business level strategy

This strategy is applicable in those organisations which have different businesses and each business is treated as separate strategic business unit.

8 Define **SWOT analysis**. What does **each component represent**?**[K][4]**

SWOT stand for strengths weaknesses, opportunities and threats, SWOT analysis is a widely used framework to summarise a company's situation or current position (5× 3 = 15)

- Cooperation between labour and management
- Maximum output in place of restricted output
- Equal division of responsibility

10. In which ways does an organization's following-**line structure differ from a functional structure**? Analyse [An] [2]

- Line organisation

Line vertical or military organisation is an arrangement where authorities flow vertically downward right from top level two bottom level of management and responsibilities flow upward from worker level to top level management

- Functional organisation

A functional organizational structure is a business model that organizes employees and departments into specialized units based on their areas of expertise and core functions.

11 **Distinguish between centralization and decentralization.** [U] [2]

- Centralisation

It means the concentration of power of decision making at one point or in a few hands. In other words, all decisions and actions at lower level, require the sanction of top management.

- Decentralisation

It is the dispersal of decision making authority to lower levels. Top management retains authority for overall control and coordination only in decentralisation authority is pushed down to lower levels.

12. Explain the **steps of the strategic management process.** [U] [4]

- Identifying the direction and specific goals
- Analysis
- Formulation of strategy
- Implementation of strategy
- Evaluation
