(20 × 1 = 20)

Part B

Short Answer Questions.
Answer any 10 questions.
Each question carries 3 marks

21 Identify and describe the main components of the LibreOffice Writer interface. [K] [1]

The main components are:

- Menu Bar: Contains options like File, Edit, View, Insert, etc.
- Toolbar: Provides quick access to commonly used tools and commands.
- Sidebar: Includes Styles, Formatting, and other customization options.
- Status Bar: Displays information like page count, zoom percentage, and cursor position.
- Text Area: The workspace where content is typed or edited.

22 What are the essential steps to format text in LibreOffice Writer? Discuss how to change font style, size, and color. [K] [1]

Steps:

1. Highlight the text you want to format.
2. Use the Formatting Toolbar or the Properties Sidebar.
3. Select the desired font style from the drop-down menu.
4. Adjust the font size using the size box.
5. Change the font color by clicking the color palette icon.

23 How can you open the Styles and Formatting panel in LibreOffice Writer? [U] [1]

- Use the shortcut **F11** or go to **View > Styles** from the menu bar
  or
- Click the Styles and Formatting tab in the Sidebar

24 What is the difference between the "Print" and "Save" options in the Mail Merge process in LibreOffice Writer? [U] [1]

- **Print**: Directly sends merged documents to the printer.
- **Save**: Creates separate documents for each recipient without printing.

25 How can you zoom in and out on a document in Scribus? [U] [2]

- Use the **Zoom Tool** in the toolbar or hold **Ctrl** and scroll the mouse wheel. Alternatively, access **View > Zoom** options.
  Or
- Using + or – in status bar

26 How do you create and edit a Bézier curve in Scribus? [U] [2]

1. Select the **Bezier Curve Tool** from the toolbar.

2. Click and drag to create control points.
3. Use the **Node Editor** to adjust the curve's shape.

27 List the actions required to apply different font styles to text in Scribus. [U] [2]

1. Highlight the text.
2. Go to the **Properties Panel**.
3. Choose the desired font, style, and size under the **Text** tab.

28 Explain how to combine shapes and text to create visual design elements. [U] [2]

1. Use the **Shape Tool** to create shapes.
2. Insert text using the **Text Tool**.
3. Adjust layering and alignment in the **Properties Panel**.

29 Discuss the benefits of using Google Docs Voice Typing feature. [U] [3]

Google Docs Voice Typing allows users to dictate text and commands using their voice, enabling hands-free document creation and editing. This feature is accessible via **Tools > Voice Typing** and requires a working microphone.

Benefits:

- Enables hands-free typing.
- Increases efficiency for long documents.
- Helps users with disabilities or those who type slowly.

30 Describe the steps to insert a page break in Google Docs. [U] [3]

- Place the cursor where you want the break.
- Go to **Insert > Break > Page Break**.

31 How do you insert an image from your computer into a Google Docs document? [U] [3]

1. Go to **Insert > Image > Upload from Computer**.
2. Browse and select the desired image file.

32 List the types of charts available directly when you click Insert > Chart in Google Docs. [K] [3]

- **Bar Chart**
- **Column Chart**
- **Line Chart**
- **Pie Chart**

(10 × 3 = 30)
