MAHATMA GANDHI UNIVERSITY, KOTTAYAM
MGU-UGP (HONOURS)
THIRD SEMESTER EXAMINATION
(2024 ADMISSION ONWARDS)
MG3VACAQC200 – Aquatic Pollution and Management

Duration: 1.5 hrs Maximum Marks: 50

Students should attempt at least one question from each course outcome to enhance their overall outcome attainability.

Part A
Very Short Answer Questions
Answer all questions
Each question carries 1 mark

1. What is meant by aquatic pollution? [1] [U]

2. Name any two toxic organic compounds responsible for aquatic pollution [1] [U]

3. What is eutrophication? [2] [U]

4. What is hypoxia? [2] [U]

5. What is red tide? [3][U]

6. Name any two heavy metals that cause aquatic pollution [2][U]

7. Comment on Water Act [4][An]

8. What is bioremediation? [5] [A]

9. Name any two sources of solid waste in aquatic environment [4] [An]

10. What is phytoremediation? [5] [A]

[1 x 10 = 10] Marks

Part B
Short Answer Questions
Answer any 10 Questions
Each question carries 2 marks

11.Distinguish between point and non point sources of aquatic pollution with suitable examples [1] [U]

12. Comment on biomagnification and its significance in aquatic pollution [1] [U]

13. What impact does turbidity have on aquatic environment? [1] [U]

14. What are PCBs and PAHs? What effects do they have on aquatic environment? [5] [A]

15. Write down any two characteristics of an oligotrophic water body [3] [U]

16. What is thermal pollution? Comment any two effects of thermal pollution [2] [U]

17. Highlight any two major impacts of microbial pollution in an aquatic ecosystem [2] [U]

18. What is radioactive pollution? [2] [U]

19. Name any two toxins caused due to red tide and their impact on aquatic organisms [3] [U]

20. Comment on water quality index [5][A]

21. What are biological indicators of aquatic pollution? [4] [An]

22. Comment on any two solid waste management strategies [4] [An]

[2 x 10 = 20] Marks

Part C
Short Essay Type Questions
Answer any four Question
Each question carries 5 marks

23. Explain the various sources of aquatic pollution [2] [U]

24. Detail the physical, chemical and biological classification of water pollution [1] [U]

25. Explain BOD and COD [3] [U]

26. Explain anthropogenic and natural pollution [2] [U]

27. Outline the laws related to water pollution in India [4] [An]

28. What are the advantages of bioremediation and phytoremediation? [5] [A]

[5 x 4 = 20] Marks
