MAHATMA GANDHI UNIVERSITY, KOTTAYAM

MGU-UGP (HONOURS) FOURTH SEMESTER EXAMINATION

(2024 ADMISSION ONWARDS)

MG4DSCPSY200 – Fundamentals of Cognitive Operations

Duration: 1.30 hrs **Maximum Marks: 50**

PART A Multiple choice questions – Answer all questions (1 mark each)

1.Which of the following is a component of thought CO1(Understand)
a)Reflexes
b)Images
c)Hormones
d) Instincts

2. Algorithms are: CO1(Understand)
a) Trial-and-error methods
b) Step-by-step procedures guaranteeing solutions
c) Guess-based strategies
d) Emotional responses

3. The stage of creativity involving unconscious processing is: CO1(Understand)
a)Preparation
b)Incubation
c)Illumination
d) Verification

4. Confirmation bias refers to: CO1(Understand)
a)Ignoring evidence
b) Seeking information that supports existing beliefs
c) Random thinking
d) Logical deduction

5. Which is a determinant of intelligence? CO1(Understand)
a) Heredity
b) Reflex action
c) Motivation alone
d) Sensory ability

6. The original Stanford–Binet test was a revision of CO1(Understand)
a) Wechsler scale
b) Army Alpha test
c) Binet–Simon scale
d) Raven's matrices

7. Observational learning is also called CO2(Understand)
a) Trial learning

b) Social learning
c) Insight learning
d) Latent learning

8. Cognitive maps refer to CO2 (Understand)
a) Reflex paths
b) Mental representation of environment
c) Reinforcement schedules
d) Motor learning

9. Law of Effect states that CO2 (Understand)
a) Learning is sudden
b) Responses followed by satisfaction are strengthened
c) Learning is observational
d) Learning is insight based

10. Zero transfer implies CO2(Understand)
a) Complete learning
b) No influence of prior learning
c) Maximum transfer
d) Forgetting

11. Memory begins with CO3 (Understand)
a) Storage
b) Retrieval
c) Encoding
d) Recall

12. Structural processing focuses on CO3(Understand)
a) Meaning
b) Appearance
c) Emotion
d) Association

13. Episodic memory relates to CO3(Understand)
a) Facts
b) Personal experiences
c) Skills
d) Reflexes

14. State-dependent memory means CO3(Understand)
a) Same mood improves recall
b) Same environment improves recall
c) Same physical state aids recall
d) Rehearsal improves recall

15. Method of loci is based on CO3(Understand)
a) Numbers
b) Places

c) Images
d) Sounds **(1 X15 =15 Marks)**

PART B Short Essays – Answer any 5 questions (7 mark each)

16. Define Intelligence and Explain Gardner's Theory of Multiple Intelligences. CO1(Understand)
17. Discuss the extremes of intelligence with reference to intellectual disability and giftedness.CO1(Understand)
18. Explain classical conditioning and discuss its principles. CO2(Understand)
19. Critically analyse the major theories of forgetting CO3(Analyse)
20. Apply the factors that prevent forgetting to an academic context. CO3(Apply)
21. Critically analyse how memory construction can lead to false memories, with reference to eyewitness testimony. CO3 (Analyse)
22. Describe operant conditioning and explain schedules of reinforcement CO2(Understand)

(5 X7 =35)
