SERIES A

QP CODE: 24900084

MAHATMA GANDHI UNIVERISTY, KOTTAYAM

FIRST SEMESTER MGU-UGP(HONOURS) REGULAR EXAMINATION NOVEMBER 2024

FIRST SEMESTER

MULTI DISCIPLINARY COURSE- MG1MDCECT101- FOUNDATION OF AI AUTOMATION

(2024 ADMISSION ONWARDS)

DURATION: 1 HOURS MAXIMUM MARKS: 35

PARTA

MULTIPLE CHOICE QUESTIONS

ANSWER ANY 35 QUESTIONS. EACH QUESTION CARRIES ONE MARKS

SERIES A			
Question number	**Correct Answer**	**Level of Understanding**	**Course Outcome**
1	b) Specific tasks	U - Understand	CO 1
2	a) A set of algorithms to recognize patterns	U - Understand	CO 1
3	a) To transmit information	A - Apply	CO 1
4	a) Cybernetics	K - Remember	CO 1
5	d) Deep Learning or (c) reinforcement learning	A - Apply	CO 1
6	c) Weather Forecasting or (a) mobile apps	K - Remember	CO 1
7	d) ELIZA	U - Understand	CO 1
8	d) Learning from mistakes or (b) decision making	U - Understand	CO 1
9	b) Understand human language	U - Understand	CO 1
10	c) To minimize the loss function	U - Understand	CO 1
11	d) All of the above	U - Understand	CO 2
12	c) OpenAI	K - Remember	CO 2
13	b) Image generation	A - Apply	CO 2
14	b) Image generation	K - Remember	CO 2
15	c) Reinforcement Learning	K - Remember	CO 2
16	b) Natural Language Processing (NLP) or (c) convolutional nueral networks	U - Understand	CO 2

17	a) By allowing vehicles to communicate with infrastructure and other vehicles	K - Remember	CO 2
18	a) Anomaly detection algorithms	K - Remember	CO 2
19	c) Integration with existing systems	K - Remember	CO 2
20	d) All of the above	K - Remember	CO 2
21	c) Transformer model	K - Remember	CO 2
22	c) /imagine	A - Apply	CO 2
23	b) Inappropriate or offensive language	U - Understand	CO 2
24	c) Identifying parts of speech in a sentence	U - Understand	CO 2
25	a) The process of generating human-like text from structured data	U - Understand	CO 2
26	b) It provides quicker resolutions to issues	U - Understand	CO 2
27	c) Fairness in predictions	U - Understand	CO 2
28	b) Decision Tree	U - Understand	CO 3
29	a) Data with known answers used to train the model	K - Remember	CO 3
30	b) Using what is already known	E - Evaluate	CO 3
31	c) Treating people in a way that is just and unbiased	E - Evaluate	CO 3
32	b) Unfair practices and misuse	E - Evaluate	CO 3
33	b) AI that considers ethical implications in decisions	U - Understand	CO 3
34	b) By collecting excessive personal data	K - Remember	CO 3
35	b) Being accountable for the impact of AI	E - Evaluate	CO 3
36	b) Balancing trying new things and using known actions	K - Remember	CO 3
37	b) By favoring certain types of posts	E - Evaluate	CO 3
38	b) Principal Component Analysis (PCA)	A - Apply	CO 3
39	b) Ads aimed at specific user interests	A - Apply	CO 3
40	b) Taking responsibility for AI actions	A - Apply	CO 3

SERIES B

QP CODE: 24900084

MAHATMA GANDHI UNIVERISTY, KOTTAYAM

FIRST SEMESTER MGU-UGP(HONOURS) REGULAR EXAMINATION NOVEMBER 2024

FIRST SEMESTER

MULTI DISCIPLINARY COURSE- MG1MDCECT101- FOUNDATION OF AI AUTOMATION

(2024 ADMISSION ONWARDS)

DURATION: 1 HOURS **MAXIMUM MARKS: 35**

PARTA

MULTIPLE CHOICE QUESTIONS

ANSWER ANY 35 QUESTIONS. EACH QUESTION CARRIES ONE MARKS

SERIES B			
Question number	**Correct Answer**	**Level of Understanding**	**Course Outcome**
1	b) To minimize the loss function	U - Understand	CO 1
2	b) By favoring certain types of posts	E - Evaluate	CO 3
3	b) Data with known answers used to train the model	K - Remember	CO 3
4	b) Taking responsibility for AI actions	A - Apply	CO 3
5	d) By collecting excessive personal data	K - Remember	CO 3
6	d) Generative Adversarial Network (GAN)	K - Remember	CO 2
7	d) All of the above	K - Remember	CO 2
8	c) Image generation	K - Remember	CO 2
9	a) It provides quicker resolutions to issues	U - Understand	CO 2
10	b) Being accountable for the impact of AI	E - Evaluate	CO 3
11	b) Cybernetics	K - Remember	CO 1
12	d) Specific tasks	U - Understand	CO 1
13	b) Balancing trying new things and using known actions	K - Remember	CO 3
14	d) Learning from mistakes or (b) decision making	U - Understand	CO 1

15	c) Treating people in a way that is just and unbiased	E - Evaluate	CO 3
16	c) ELIZA	U - Understand	CO 1
17	c) Reinforcement Learning	K - Remember	CO 2
18	b) Natural Language Processing (NLP) or (c) convolutional neural networks	U - Understand	CO 2
19	c) Deep Learning or (d) reinforcement learning	A - Apply	CO 1
20	b) Inappropriate or offensive language	U - Understand	CO 2
21	c) AI that considers ethical implications in decisions	U - Understand	CO 3
22	b) The process of generating human-like text from structured data	U - Understand	CO 2
23	c) A set of algorithms to recognize patterns	U - Understand	CO 1
24	c) Using what is already known	E - Evaluate	CO 3
25	c) Integration with existing systems	K - Remember	CO 2
26	d) Understand human language	U - Understand	CO 1
27	b) Decision Tree	U - Understand	CO 3
28	c) Fairness in predictions	U - Understand	CO 2
29	d) Anomaly detection algorithms	K - Remember	CO 2
30	d) /imagine	A - Apply	CO 2
31	b) Identifying parts of speech in a sentence	U - Understand	CO 2
32	c) Unfair practices and misuse	E - Evaluate	CO 3
33	a) By allowing vehicles to communicate with infrastructure and other vehicles	K - Remember	CO 2
34	b) To transmit information	A - Apply	CO 1
35	c) Weather Forecasting or (d) mobile apps	K - Remember	CO 1
36	b) Principal Component Analysis (PCA)	A - Apply	CO 3
37	d) All of the above	U - Understand	CO 2
38	b) Ads aimed at specific user interests	A - Apply	CO 3
39	a) OpenAI	K - Remember	CO 2
40	c) Image generation	A - Apply	CO 2
