QP Code: 24900085[Series A]

MAHATMA GANDHI UNIVERSITY ,KOTTAYAM

FIRST SEMESTER MGU-UGP (HONOURS) REGULAR EXAMINATION NOV2024

Multi-Disciplinary Course – MG1MDCECT102-DATA ANALYTICS

ANSWER KEY [SERIES A]

Duration : 1 Hr **Maximum Marks: 35**

Part A .Multiple choice questions.
Answer any 35 questions.
Each question carries 1 mark

1. b.They can efficiently collect responses from a large number of participants. [CO2]
2. b.Interview [CO2]
3. b.To display trends over time [CO2]
4. b. It typically represents time or ordered data [CO2]
5. d. All of the above [CO1]
6. a. A song saved as an MP3 file [CO1]
7. b. Youtube [CO1]
8. c. Understanding customer reviews on a product or service [CO1]
9. b. Predicting future trends [CO1]
10. b. Open ended surveys and interviews [CO1]
11. c. Diagnostic analysis [CO1]
12. c. Tableau [CO1]
13. c. Desk research [CO1]
14. b. Summarised and analysed reports. [CO1]
15. c. Evaluating the data's relevance and accuracy for the current study. [CO1]
16. b. Social media post. [CO1]
17. c. Python [CO1]
18. b. Excel [CO1]
19. c. Data is organised in rows and columns. [CO1]
20. c. Customer transaction records. [CO1]
21. c. It takes whole countable numbers. [CO1]
22. b. Demographic studies (eg. Number of people) . [CO1]
23. a. By measuring with a device like a ruler or thermometer. [CO1]
24. c. It is time consuming and expensive. [CO1]
25. b. Tableau [CO1]
26. c. Data privacy and security concerns. [CO1]
27. d. To understand historical patterns in traffic or route choices. [CO1]
28. a. Machine learning models and algorithms. [CO1]
29. d. Discrete and Continuous. [CO1]
30. c. Optimized processes and cost savings. [CO1]
31. b.Combine the rows into one and decide how to handle the differing value based on the context(average the value ,use the latest entry). [CO2]
32. c. Interview [CO2]
33. c.Label each line clearly with a legend. [CO2]
34. b. " Save As " allows you to rename the file or change its format. [CO2]

35. d. .jpg [CO2]
36. b. It ensures that each feature has equal importance in distance-based algorithms. [CO2]
37. a. When using algorithms like decision trees or random forests. [CO2]
38. b. MIN [CO2]
39. a.Converts text to number [CO2]
40. d. All of the above. [CO2]
