Name : .....

MAHATMA GANDHI UNIVERSITY, KOTTAYAM

MGU-UGP (HONOURS) REGULAR EXAMINATION March 2026

Fourth SEMESTER

Discipline Specific Core Course (DSC) - MG4DSCBTG201, MG4DSCBBT202 - IMMUNOLOGY

(2024 ADMISSION ONWARDS)

Duration: 1 Hour 30 Minutes **Maximum Marks: 50**

Remember(K), Understand(U), Apply(A), Analyse(An), Evaluate(E), Create(C), Skill(S), Interest(I) and Appreciation(Ap)

Students should attempt at least one question from each course outcome to enhance their overall outcome attainability.

Part A

One word or sentence

Answer any **10** questions

Each question carries **2** marks

1. List the immune cells that present antigens to T cells [K] / [CO1]
2. Recall the organ that is specialized in filtering blood. [K] / [CO1]
3. Name the type of transplantation between two genetically different individuals of the same species. [K] / [CO3]
4. Name the immunological effect where the excess antibodies in a sample cause false-negative results in agglutination test. [K] / [CO2]
5. Recall the immunoassay suitable for measuring drug levels in blood. [U] / [CO2]
6. Name the determinant that define the isotype of the antibody based on heavy chain present. [K] / [CO1]
7. Name the immunity transferred via placenta. [K] / [CO4]
8. Name one disease caused by Type III hypersensitivity. [U] / [CO3]
9. Identify the technique that separates and detects proteins using antibodies. [U] / [CO2]

10. List any two examples of molecular mimicry. [K] / [CO3]

11. Select the immunity that lacks memory [K] / [CO1]

12. Name the antigens which originate from own body of the host organisms. [K] / [CO1]

[2x10 = 20]

Part B

Short Essay

Answer any **5** questions

Each question carries **4** marks

13. Describe the procedure of CFT step by step. [U] / [CO2]

14. Outline the structural components of MHC Class II molecules with labelled diagram. [K] / [CO1]

15. Differentiate congenital and acquired immunodeficiency diseases. [U] / [CO3]

16. List the features of active and passive immunity [K] / [CO1]

17. Explain the steps involved in radioimmunodiffusion. [U] / [CO2]

18. Recall the characteristics of hybridoma cells [U] / [CO4]

19. Explain the applications of Widal test. [U] / [CO2]

[4x5 = 20]

Part C

Essay type questions

Answer any **1** questions

Each question carries **10** marks

20. Explain recombinant antibody production and explain its advantages. [U] / [CO4]

21. Show the cells involved, phases, and effector mechanisms of cell-mediated immune response. [K] / [CO1]

[10x1 = 10]
