Name : .....

MAHATMA GANDHI UNIVERSITY, KOTTAYAM

MGU-BBA (HONOURS) Regular EXAMINATION March 2026

Fourth SEMESTER

Value Addition Course(VAC) - MG4VACBBA200 - MANAGEMENT INFORMATION SYSTEMS AND APPLIED DATA ANALYSIS

(2024 ADMISSION ONWARDS)

Duration: 1 Hour 30 Minutes **Maximum Marks: 50**

Remember(K), Understand(U), Apply(A), Analyse(An), Evaluate(E), Create(C), Skill(S), Interest(I) and Appreciation(Ap)

Students should attempt at least one question from each course outcome to enhance their overall outcome attainability.

Part A

MCQ

Answer all questions

Each question carries **1** mark

1. Edge computing processes data: [U] / [CO1]

   a). Only in centralized clouds b). Only in data centers

   c). Closer to the data source d). Only on desktops

2. ERP and CRM systems are examples of: [U] / [CO1]

   a). Operating systems b). Enterprise applications

   c). Networking platforms d). Storage platforms

3. The set of rules that governs the communication between different computers on a network is called a: [U] / [CO1]

   a). Standard b). Protocol (e.g., TCP/IP) c). Logic d). Program

4. A legacy organizational culture that resists transparency is creating data silos, despite the implementation of a state-of-the-art ERP system. Which dimension of the information system is primarily failing to align? [U] / [CO1]

   a). The Organization Dimension b). The Management Dimension

   c). The Infrastructure Dimension d). The Technology Dimension

5. Which level of management uses MIS the most? [U] / [CO1]

   a). Top level only b). Lower level only

   c). Middle level only d). All management levels

6. Mainframe computing is characterized by: [U] / [CO1]

   a). Distributed processing b). Centralized processing

   c). Mobile access d). Edge processing

7. IT infrastructure evolution began with: [U] / [CO2]

   a). Cloud computing b). Mainframe systems

   c). AI systems d). Blockchain

8. Inventory control in E-Business is an example of: [U] / [CO2]

   a). Internal electronic process b). External advertising

   c). Manual work d). Social media activity

9. Which report is generated at fixed intervals? [U] / [CO2]

   a). Exception report b). Scheduled report

   c). On-demand report d). Forecasting report

10. E-communication involves: [A] / [CO2]

    a). Email b). Fax c). Postal mail d). None

11. Forward chaining answers the question: [U] / [CO2]

    a). Why did this happen?Who did this?

    b). Who did this?

c). What can happen next?

d). Where did it happen?

12. Tagging in enterprise social networking helps to: [U] / [CO2]

a). Delete information

b). Add keywords to identify content

c). Hide documents permanently

d). Increase hardware speed

13. MIS reports are generally: [An] / [CO2]

a). Periodic b). Random c). Rare d). None

14. Pearson's correlation measures [U] / [CO3]

a). Linear relations between variables b). Non linear relation c). Casual relation d). Rank based relation

15. What is the assumption of ANOVA? [K] / [CO3]

a). Normality of data b). Homogeneity of variances c). Independence of observations d). All

16. Number of books borrowed by students from a library in a month is an example of: [U] / [CO3]

a). Continuous quantitative data b). Discrete quantitative data

c). Nominal Data d). Ordinal Data

17. In simple linear regression there are [U] / [CO3]

a). One independent and dependent variable

b). two dependent variables

c). multiple independent variables

d). only categorical variables

18. Which of the following is an example of qualitative data? [U] / [CO3]

a). Height in cm b). Weight in kg c). Eye Color d). Age in Years

19. Logistic regression is used for [U] / [CO3]

a). Regression b). Classification c). Clustering d). None

20. Where we get the option to customize the variable in Jamovi [U] / [CO3]

a). Variable panel b). Data View

c). Module d). Analyses Panel

[1x20 = 20]

Part B

SHORT ESSAY

Answer any **6** questions

Each question carries **5** marks

21. Discuss how MIS improves organizational efficiency. [U] / [CO1]

22. What is the difference between information and kowledge. [U] / [CO1]

23. What the priority in Business process re-engineering? [An] / [CO2]

24. What are the prerequisite to make E-communication? [An] / [CO2]

25. Explain Knowledge Management System. [An] / [CO2]

26. Explain the difference between discrete and continous data with examples [U] / [CO3]

27. What are the assumptions of Wilcoxon signed rank test (paired sample)? [U] / [CO3]

28. Explain in detail mean with suitable example. [U] / [CO3]

[5x6 = 30]
