Scheme:

- Definition → 1
- Purpose → 1

PART B – Short Answer (25 marks)

(5 marks each – Answer any 5)

Q6. Benefits of Destination Management System [CO1]

Answer:

- Centralized information
- Better marketing
- Stakeholder coordination
- Real-time booking
- Improved tourist experience

Scheme:

- Definition → 1
- Any 4 points → 4

Q7. Qualitative vs Quantitative Data [CO2]

Answer:

Qualitative	Quantitative
Descriptive	Numerical
Subjective	Objective
Interviews	Surveys
Small sample	Large sample

Example: Interview vs statistical data

Scheme:

- Definition → 1
- Differences → 3
- Example → 1

Q8. Social Media Marketing [CO3]

Answer:

- Definition
- Platforms (Instagram, Facebook)
- Uses (promotion, engagement)
- Influencer marketing

Scheme:

- Definition → 1
- Platforms → 1
- Uses → 2
- Example → 1

Q9. Tourism with and without Information Systems [CO1]

Answer:

With IS:

- Fast booking
- Accuracy
- Better service

Without IS:

- Manual work
- Errors
- Delay

Scheme:

- Concept → 1
- With IS → 2
- Without IS → 2

Q10. Secondary Data Sources [CO2]

Answer:

- Government reports
- Websites
- Journals
- Research papers

Scheme:

- Definition → 1
- Sources → 3
- Importance → 1

Q11. Destination Websites [CO3]

Answer:

- Provide tourism information
- Enable booking
- Promote destinations
- Improve customer interaction

Scheme:

- Definition → 1
- Features/importance → 4

Q12. GIS in Tourism [CO1]

Answer:
GIS is used for mapping and spatial analysis.

Applications:

- Mapping destinations
- Planning
- Route optimization
- Environmental monitoring

Scheme:

- Definition → 1
- Applications → 3
- Example → 1

PART C – Essay (15 marks)

(Answer any 1)

Q13. Data Analysis Techniques in Tourism [CO2]

Answer:

Introduction:
Data analysis helps understand tourism trends and behaviour.

Techniques:

- Descriptive analysis
- Predictive analysis
- Statistical tools

Role:

- Trend identification
- Behaviour analysis
- Decision-making

- Market segmentation

Examples:
Tourist arrivals, seasonal demand

Conclusion:
Improves planning and tourism management.

Scheme (15 marks):

- Introduction → 2
- Techniques → 4
- Role → 5
- Examples → 2
- Conclusion → 2

Q14. Online Reservation System [CO3]

Answer:

Introduction:
Online reservation system enables booking through the internet.

Process:

1. Search
2. Select
3. Enter details
4. Payment
5. Confirmation

Components:

- Database
- Interface
- Payment gateway

Advantages:

- Convenience
- Time-saving
- Real-time updates

Examples: Airlines, hotels

Conclusion:
Enhances efficiency and customer satisfaction.

Scheme (15 marks):

- Introduction → 2
- Process → 5
- Components → 3
- Advantages → 3
- Conclusion → 2

FINAL CO–QUESTION MAPPING TABLE

CO	Questions
CO1	1, 4, 5, 6, 9, 12
CO2	2, 7, 10, 13
CO3	3, 8, 11, 14
