25901214 **Reg.No : .....**

Name : .....

MAHATMA GANDHI UNIVERSITY, KOTTAYAM

MGU-UGP (HONOURS) REGULAR EXAMINATION March 2026

Fourth SEMESTER

Discipline Specific Elective (DSE) - MG4DSEECO200 - EXPLORING ECONOMIC DATA ANALYTICAL TOOLS

(2024 ADMISSION ONWARDS)

Duration: 1 hour 30 minutes **Maximum Marks: 50**

Remember(K), Understand(U), Apply(A), Analyse(An), Evaluate(E), Create(C), Skill(S), Interest(I) and Appreciation(Ap)

Students should attempt at least one question from each course outcome to enhance their overall outcome attainability.

Part A

Multiple Choice Questions

Answer all questions

Each question carries **1** marks

1. Mean, median, and mode in SPSS are found under which dialog button? [K] / [CO1]

   a). Charts b). Statistics

   c). Options d). Output

2. In SPSS, which menu path gets measures of dispersion? [K] / [CO1]

   a). Analyze > Descriptive Statistics b). Graphs > Chart Builder

   c). Data > Variable View d). File > Save As

3. In SPSS charts facilitate process through? [U] / [CO3]

   a). Manual drawing b). Interactive exploration

   c). Paper printing d). Verbal explanation

4. How to get a Histogram from series in EVIEWS? [A] / [CO2]

   a). Right-click series > View > Histogram b). File > Graph

c). Object > Plot d). Data > Chart

5. GRETL workspace navigation: Save dataset format? [E] / [CO4]

a). .xlsx b). .gdt

c). .csv d). .txt

6. Why GRETL suitable for economics students? [An] / [CO4]

a). Commercial cost b). Free, cross-platform

c). Complex scripting only d). No time-series support

7. Common SAS use in economics? [U] / [CO3]

a). Large-scale survey analysis b). Simple descriptives

c). Graphic design d). Word processing

8. STATA known for what type analysis? [U] / [CO3]

a). Time series forecasting b). Microeconometrics and panel data

c). Qualitative coding d). Image processing

9. SAS Explorer used for? [U] / [CO1]

a). View libraries and datasets b). Write programs

c). View results d). Run procedures

10. R advantage: Statistical package availability? [U] / [CO1]

a). Thousands of specialized packages b). Only base functions

c). 10-20 packages d). Commercial only

11. Evaluate Power BI visualization strength? [E] / [CO4]

a). Interactive business insights b). Static academic charts

c). Econometric plots d). Programming code

12. Transform data in Power BI using? [A] / [CO2]

a). Power Query Editor b). DAX editor

c). Report canvas d). Data modeling

13. R programming language originally created by? [K] / [CO1]

a). John Chambers b). Ross Ihaka and Robert Gentleman

c). Guido van Rossum d). James Gosling

14. RStudio interface has how many main panes? [K] / [CO1]

a). 3 panes b). 4 panes

c). 2 panes d). 5 panes

15. Power BI first released in? [K] / [CO1]

a). 2011 b). 2015

c). 2018 d). 2020

[1x15 = 15]

Part B

Short Answer Questions

Answer any **10** questions

Each question carries **2** marks

16. Name two main benefits of graphical capabilities in data analysis software for economics. [K] / [CO1]

17. Describe two SPSS limitations in economic data analysis process. [U] / [CO3]

18. Explain two common uses of SPSS in economics and social sciences. [U] / [CO1]

19. Describe how EVIEWS advantages help univariate data analysis. [A] / [CO2]

20. State two EVIEWS operations for data preparation in analysis. [K] / [CO3]

21. List two GRETL strengths useful for simple economic statistical models. [K] / [CO4]

22. List two advantages of SAS for economic surveys. [K] / [CO1]

23. State two STATA commands for data preparation. [K] / [CO3]

24. Outline SAS code syntax for data import operation. [A] / [CO2]

25. List two R packages useful for simple economic statistical models. [K] / [CO4]

26. List two measures of dispersion you can compute in R. [K] / [CO1]

27. Explain how slicers help the analysis process in a Power BI dashboard. [U] / [CO3]

28. Describe how Power BI supports basic univariate data visualization. [A] / [CO2]

[2x10 = 20]

Part C

Short Essay Questions

Answer any **3** questions

Each question carries **5** marks

29. Explain the process of creating and customizing histograms, pie charts, and bar charts in SPSS for economic data visualization. [U] / [CO1]

30. Explain the importance of SPSS's user-friendly interface and statistical library in facilitating the data analysis process for economists. [U] / [CO3]

31. How would you apply EVIEWS to conduct time series and econometric analysis? Describe its practical applications in economic research. [A] / [CO2]

32. Explain the advantages and limitations of STATA in facilitating data management and statistical analysis for economic research. [U] / [CO3]

33. Analyze how R's syntax and commands enable complex data manipulation and statistical operations. [An] / [CO4]

[5x3 = 15]
