25901251 **Mahatma Gandhi University, Kottayam**

MGU-UGP (Honours) Regular Examination March 2026

Fourth Semester

DSE- MG4DSEENG202- Dynamics of Radio Jockeying, Anchoring and Interviewing

Duration: 2 hours **Maximum marks: 70**

Scheme of Valuation

PART A - MCQ

Answer all questions. Each question carries 1 mark

1. c) Drafting the script	CO1
2. c) Match tone and mood to the listener's emotional context	CO2
3. c) slowly and clearly	CO3
4. b) invite elaboration and reflection	CO4
5. b) general to specific	CO4
6. c) strip show	CO1
7. b) creates monotony and reduces engagement	CO2
8. c) open-ended question	CO3
9. a) reflective probing based on active listening	CO4
10. d) understand audience mood	CO3

(1x10=10)

PART B - SHORT ANSWERS

Answer any 6 questions. Each question carries 5 marks.

11. Outdoor Broadcasts (OBs)- take radio outside the studio - live transmissions from concerts, fairs and community events allow listeners to experience the energy of public gatherings- OBs capture the voices and sounds of real people -thus radio remains closely tied to local life and culture. CO1

12. Radio-an aural and oral medium- intonation, rhythm and emphasis matter- listeners respond to what is said and how it is said- key factors that contribute to effectiveness are-pronunciation, accent and expression, content volume and pace of delivery. CO2

13. Talk show anchor /host- acts as facilitator and connector between guests and audience-success of the show depends on the anchor's ability to create a comfortable environment encourage open dialogue and maintain the flow of conversation- fairness and neutrality in dealing with the participants-requires confident body language, mastery of communication, listening and emotional awareness-emotional intelligence-sense of humour-warmth- best talk show hosts combine intellect with personality. CO3

14. Oprah Winfrey- a leading figure in broadcast conversation- interview with Michael Jackson- filmed at Neverland Ranch- Oprah used leaning posture, open gestures and soft lighting to create a humane tone. CO4

15. Live Phone-ins -listeners call the studio to share views and experiences- the presenter interacts directly with callers- creates lively and participatory exchange- act as an instant feedback mechanism. By observing audience responses and reactions, presenters and producers can modify their tone, pacing or the content of the show to suit the expectations of the listener. CO2

16. The format followed by professional script writers for radio ensures timing, clarity and coordination among the team. The essential elements include:
1. Slug Line: The headline or title of the story, followed by the reporter's initials and scheduled broadcast time
2. Page Layout: Maintain one-inch margins on each side. A line of double-spaced text takes about 0.4 seconds to read aloud. A 45-second story usually runs about 12 lines.
3. Formatting: double spacing with a mix of upper and lower case. Important words or cues may appear in ALL CAPS.
4. Cart Information: Include cart numbers, total running time (TRT) and details such as incues and outcues to help the team coordinate during live broadcasts.
5. Announcer Cues: Use the abbreviation ANNCR to mark sections meant to be read aloud.
6. Non-verbal Notes: Circle technical notes like time checks, mic cues or sound effects.
7. Pronunciation and Emphasis: Mark dificult words, names or numbers with phonetic symbols or stress marks to ensure accurate delivery. CO1

17. Used during live coverage or rapidly developing stories- to verify facts instantly through credible sources such as news agencies, government portals, or verified social media accounts CO2

18. Time management-critical in live formats- anchors need to synchronise with production cues, monitor segment durations and manage transitions gracefully can use bridging expressions such as Up next, Before we move on, or Continuing our journey this evening, help maintain rhythm and structure while sounding conversational. CO3

19. It’s the Books that matter, not the Knives – Salman Rushdie with Razia Iqbal-the conversation focusses on art, survival and moral reflection-violence becomes context not spectacle. CO4

(5x6=30)

PART C - ESSAY
Answer any 2 questions. Each question carries 15 marks

20. Interviewing the Icon- Graham Bensinger in Conversation with Sachin Tendulkar- 50-minute conversation spans Sachin’s life journey – Bensinger’s interviewing style rests on three pillars: preparation, empathy and restraint -his deep research, open-ended questions, measured pacing, environmental framing and emotional intelligence transformed the interview into a reflective human narrative.
The approach -Setting and Format: Creating a Conversational Space-the Tendulkar episode was filmed on locations in Mumbai, at Tendulkar's home, his childhood neighbourhood and local cricket grounds- this technique allows space to become part of the story- the surroundings evoke memory
Pedagogical Insight: The environment influences emotion. A meaningful, comfortable space fosters openness and authenticity, turning an interview into lived storytelling- Bensinger’s interview follows a narrative arc- -introduction- exploration-Reflection-closure. CO4

21. History of Radio Broadcasting in India - Early Experiments (1920s-1930): Amateur radio clubs in Calcutta, Bombay and Madras (from 1925) - aired programmes for more than two hours. The Indian Broadcasting Company (IBC) began regular transmission in 1927 raising

funds through licence fees and import duties. It closed operations in 1930 - Public Broadcasting (1930-1936): The government created the Indian State Broadcasting Service (ISBS) in 1930 and took over Bombay and Calcutta stations. The Indian Tariff (Wireless Broadcasting) Amendment Act, 1932 (doubling import duty on receivers) and the Indian Wireless Telegraphy Act, 1933 (licence mandatory for ownership) together strengthened the System - All India Radio (1936 onwards): In 1935, BBC producer Lionel Fielden and engineer H. L. Kirke were invited to modernise broadcasting. Within a year a central broadcast station was opened at Delhi and Fielden renamed ISBS All India Radio (AIR). The plan emphasised medium-wave for cities and short-wave for connecting them.
Post-Independence Developments: At the time of Independence, India had 11 stations and 248,000 licence holders. A pilot project sought to establish at least one station in every linguistic region. AIR was put under the Ministry of Information and Broadcasting.
The Role of Radio in India
Radio matters in India - human voice builds trust and intimacy- relevant across genres--news, education, drama and music. During the Green Revolution radio was a key channel for agricultural guidance and social development.
1. Tool for mass communication: reaches remote and marginalised communities where TV or internet access is limited.
2. Preservation of culture: helps to sustain folk music, classical concerts and regional drama
3. Education: Programmes like Radio Lessons and Vayalum Veedum promote literacy, health and agricultural awareness.
4. Emergency communication: gives reliable information during disasters.
5. Advertising and commerce: Commercial FM drives local and retail marketing.
6. Democratisation: Community Radio and Campus FM enable people to produce and broadcast their own content

CO1

22. Recorded shows -useful when presenters are unavailable or when a show needs careful editing and sound design.
Voice Track: A pre-recorded segment that sounds like a live Show. RJs record their talk segments and insert them between songs. This technique is often used for late-night or holiday shows to maintain the illusion of a live broadcast.
Live: A live broadcast happens in real time - the RJ's speech, laughter and even small mistakes go straight to air. Live shows require quick thinking and composure, though they offer unmatched authenticity and excitement. CO2

23. Anchoring involves managing multiple challenges- unpredictability of situations demands thorough preparation and presence of mind- Effective anchoring relies on careful planning and structuring of the script as well- to be successful and effective, anchors should manage nervousness and maintain confidence on stage or in front of the camera- require emotional balance: deep breathing, mental rehearsal and positive visualization help control anxiety and sustain composure under pressure - Be aware of audience diversity- should adapt tone and expression to suit each setting - To deal with physical and vocal strain anchors should practice breathing control, hydration and proper posture- regular vocal training and physical exercise help maintain stamina, articulation and vocal health. CO3
