16. Here is a passage. After reading it, answer each question, not exceeding 50 words. [U] / [CO3]

    In international careers, cultural competence is increasingly recognised as a skill equal in importance to technical knowledge or language proficiency. Professionals often operate in environments where values, social norms, and communication styles differ significantly from their own. Failure to recognise these differences can lead to misunderstandings, damaged relationships, and even professional setbacks. Cultural competence involves more than factual knowledge about other cultures. It requires openness, self-awareness, and the ability to reflect on one's own assumptions. Professionals who demonstrate cultural sensitivity are better able to collaborate, negotiate, and build trust across borders. This skill is particularly valuable in leadership roles, where decisions affect diverse teams. As global mobility increases, employers place growing emphasis on intercultural skills. Language proficiency provides access to communication, but cultural competence determines its effectiveness. Together, they form the foundation of successful international engagement.

    1. Why is cultural competence important in international careers?
    2. What problems may arise from a lack of cultural awareness?
    3. How does the passage define cultural competence?
    4. What can be inferred about employer priorities in global contexts?
    5. Explain the relationship between language proficiency and cultural competence.

17. Describe a book or a movie that changed your way of thinking. Explain why it had this impact on you. [A] / [CO4]

[15x1 = 15]
