MAHATMA GANDHI UNIVERSITY, KOTTAYAM

MGU-UGP (HONOURS) REGULAR EXAMINATION March 2026

Fourth SEMESTER

Discipline Specific Core Course (DSC) - MG4DSCFIM200 - EXERCISE PROGRAM DESIGN

(2024 ADMISSION ONWARDS)

Duration: 1 hour 30 minutes **Maximum Marks: 50**

Remember(K), Understand(U), Apply(A), Analyse(An), Evaluate(E), Create(C), Skill(S), Interest(I) and Appreciation(Ap)

Students should attempt at least one question from each course outcome to enhance their overall outcome attainability.

Part A

MCQ

Answer all questions

Each question carries **1** marks

1. For beginners, recommended frequency is: [K] / [CO1]

   a). 1 day/week b). 2-3 days/week c). 6-7 days/week d). Once a month

2. Speed endurance training involves: [U] / [CO1]

   a). Longer sprints with short rest b). Short sprints with long rest c). Only walking d). Only jumping

3. Plyometrics should be introduced: [A] / [CO1]

   a). After establishing strength base b). Before any training c). Only for beginners d). Without supervision

4. Growth plates in children are: [K] / [CO2]

   a). Vulnerable to injury b). Stronger than bone c). Not affected by exercise d). Fully developed

5. Which parameter should be monitored most closely during pregnancy exercise? [E] / [CO2, CO3]

a). Fetal heart rate | b). Mother's perceived exertion | c). Both A and B | d). Neither needs monitoring

6. Why is aquatic therapy beneficial for arthritis? [An] / [CO3, CO4, CO5]

a). Water resistance provides joint support | b). Increases body weight load | c). Causes more pain | d). No benefits

7. Most important consideration for exercise during cancer treatment is: [E] / [CO3, CO4, CO5]

a). Uniform program for all | b). Individualized based on type, stage, treatment side effects | c). Only patient age | d). Only exercise equipment

8. For a beginner, the initial phase should focus on: [A] / [CO4, CO5]

a). Mastery of technique | b). One-rep max testing | c). Competition | d). Extreme fatigue
